Its method of examination is the safest, as the amount of its losses indicates.

Its method of insurance is the strongest, because it is based on the safest examination and the most careful supervision.

Its information is the fullest, because it furnishes abstracts in addition to an opinion and a policy.

Its policies are universally accepted by individuals, trustees and corporations.

It has complete locality and nominal plants of the Counties of New York, Kings and Westchester.

Index to Record and Guide Vol. LXIII.

For New York Auction Sales, Conveyances, Leases, Mortgages, Projected Buildings and Advertisers.

NOS. 1608 TO 1632. JANUARY—JUNE, INCLUSIVE. 1899.

PREFACE.

The following is the semi-annual Index of Volume LXIII. of The Record and Guide, containing complete lists of the Auction Sales, Conveyances, Leases, Mortgages and Buildings Projected in New York City during the first six months of 1899. Those wishing to keep a file for permanent reference should see that all the numbers are complete and have them bound. Cost of binding, $2.00 per volume. A suitable temporary binder, holding one volume, can be obtained at the office, 14 and 16 Vesey street; price, one dollar.

THE KEY.

* Before any page No. indicates an Auction Sale.

† Before any page No. indicates a New Building Projected.

Figures in parenthesis are leases.

Figures preceded by capital letter are mortgages, said capital letter indicating the first letter of the name of the mortgagor.

Figures without any signs whatsoever are Conveyances.

EXAMPLE.

Downing st, from Bleecker to Bedford sts.. H 302, *680, (779), 887, K 897, 946, 1001, W 1010, 1156, †1169.

On page H 302, under the letter H, and K 897; page 897, under the letter K also W 1010; page 1010, under the letter W mortgages can be found.

On *680, an auction sale can be found.

On page (779) a lease can be found.

On pages 887, 946, 1001 and 1156, conveyances can be found.

On page †1169 plans for a new building can be found.

All the above affecting the property on Downing st, bet Bleecker and Bedford sts.

AUCTION SALES.

The * appearing before any number indicates the page on which to find an Auction Sale.

CONVEYANCES

are distinguished by numbers without having signs attached thereto. In many instances there will be found streets, etc., indexed under pages which, on being examined, show at once that they are not in their proper order according to our customary alphabetical and numerical arrangement. A further examination will disclose the fact that while the properties appear more prominently under the other street descriptions, they nevertheless extend to the streets, etc., indicated by the Index, and having a frontage on same have been included in the paging, and it will necessitate a somewhat more thorough search than usual to locate it. The Leases, Mortgages, Auction Sales and Projected Buildings are indexed in a similar manner to the plan followed with the Conveyances.

LEASES.

The figures in parenthesis denote that the transaction on the page given is Leasehold, an assignment of lease or a lease running for a short or long term of years. This explanation is made so that subscribers searching for transfers in fee can at once distinguish between the former and the latter without referring to the pages mentioned.

MORTGAGES.

All the mortgages are indexed against the street or avenue in which the property is located, and memoranda added to enable searchers to find the particulars in "The Record and Guide." See "Example." The streets and avenues are so subdivided that very few references are necessary. All readers of "The Record and Guide" are aware that the mortgages appear weekly in alphabetical order, so that they have, so to speak, a weekly index of mortgagors. This publication of an index against property completes the information which those interested may require.

PROJECTED BUILDINGS.

are included under the same general heading, and are distinguished by the † which precedes the numbering.

Auction Sales, Conveyances, Leases, Mortgages and Projected Buildings.

NEW YORK CITY.

STREETS.

NOTE.—Longitudinal streets, roads and places, such as the Bowery, Boulevard, Broadway, etc., which run parallel with the various avenues, will be found in alphabetical order amongst the avenues.

Vol. LXIII. JANUARY 7, 1899. 1,608

DISPLAY of irregularity is made by the Stock Market. The advances are called forth by new developments such as the connection of the M. K. & T. with the Alton, the improved prospects for People's Gas, etc. On the other hand disappointments have been experienced; for instance, by the holders of Hocking Valley securities on the publication of the plan of reorganization. They had been led by newspaper chatter to believe that their property would be benefited by a huge combination of soft coal interests in which it would participate. The problem of consolidating the anthracite interests has baffled some of the best business minds in the country for years, and yet that is a simple proposition compared with what the task of harmonizing the bituminous interests would be. It is, therefore, not surprising that Hocking Valley is to be made to stand alone simply by the old plan of throwing off interest obligations. The property is a good one at bottom, and, on the declines created by the dissatisfaction of present holders with the plan of reorganization, its securities ought to be profitable purchases. Here and there there are similar chances to make purchases on merit. But nine-tenths of the movement now in progress is speculation pure and simple, and those who do not mind the chances that such a movement involves may go in and make money or, when they stay too long, one day be caught in the reaction that is sure to come sooner or later; but that is a risk that all speculators take. The dangers that always environ such an enthusiastic buying movement as the one now in progress are concealed to the eye of the uninitiated by the undoubtedly bright business prospects of the country, by the ease with which money may be obtained for speculative uses and by the distraction afforded by announcements of pecuniary success that are continually being made from this or that direction. It is impossible not to feel encouraged by the cheerful circumstances of the hour, or to refrain from giving expression to this feeling; and the form of expression most popular here under such circumstances has always been stock gambling.

IN the European markets the rates for money discourage speculation, and to some extent force liquidation. For the moment some encouragement is given by the release of money for January interest and dividends, but the outlook for the near future is not reassuring, because the prospect of an increased commercial demand with the coming of spring will compel caution and prevent any but small and quite temporary reductions in rates. As usual when the security markets are disturbed there are rumors of untoward political complications, but these have little if any real effect in producing lower quotations, the growing scarcity of money being the prime if not the only moving cause. The growth of the commercial demand for funds is shown in the fact that with few exceptions the calls for capital in London in the past quarter were for industrial enterprises. In a total of $127,500,000 there were no Government, Indian, Colonial or home municipal or county loans. Bank of France shares advanced 230 f., par being 1,000 f., last month on the expectation of an increased dividend for the half year, profits having increased by $450,000 over the same half of 1897. The last statement of the Imperial Bank of Germany shows a further improvement on that noted last week in the position of the bank. The Hamburg-American Line will ask its shareholders next week to sanction an increase of capital of $3,750,000, making the total $15,000,000. The new capital is to be used for extending the business of the line in its Asiatic service. A dividend of 8 per cent. will be paid, against 6 per cent. last year. The Prague Iron Industry Company of Austria has abandoned its proposition to distribute a special reserve of 5,000,000 florins, but the agitation for governmental action to reduce the protective duties by which the company has been able to accumulate this and other reserves goes on. It is claimed that industries in which 2,870 millions florins are invested have been injured for the sake of one in which 50 millions florins represent the total capital invested. It will probably interest people engaged in the real estate business in New York to know how land goes in Dawson City. A consular report states: The price of property in the business locality is enormous. A lot of convenient size upon the main street cannot now be had under $40,000. Lots in a bog off Main street bring from $5,000 to $10,000. * * * Along the river ground leased from the authorities brings $10 per foot per month. * * * The prevailing price of labor is $1 per hour, but there are so many idle hands waiting for employment that the supply exceeds the demand, and may bring the price down. Still, there is the greatest activity in the erection of large buildings and warehouses.

GIVE THEM A CHANCE.

SOMEONE in Brooklyn writes to us asking why the Underground Road is not built in Manhattan if there really exists the "popular craze" for the northern section of the city, which, the Sun says, does exist, and, if so much real estate in the upper Wards is suffering because of the lack of rapid transit facilities as the Record and Guide stated last week was the case?

The question is a natural one, although the writer probably was not seeking information. Many other persons must have wondered why there has been for so many years so much utterly inconsequential talk about "rapid transit" in New York City if there has ever been any real, or as the political economists say, "effective demand" for it. In other matters supply is not so tardy an attendant upon demand. Hotels, dry-goods stores, steamship lines, all the thousand and one satisfactions of popular wants have arisen promptly at the call of a real demand. Only the cry for rapid transit—that accommodation for which a great city is supposed to be appealing—remains obstinately unsatisfied.

Certainly this is an anomoly. The explanation, however, is not to be found in any supposition that New York property is not suffering from the insufficiency of transportation facilities or that a vast number of our citizens are not really anxious for quicker passage between their businesses and their homes. How, then, does the case stand?

The weak or unfortunate phase of the demand for rapid transit is that the sanction and perhaps the aid of Government must be evoked before there can be any supply. The hotel may be started or the dry-goods store opened without the consent of Government; but in the building of a railroad this cannot be dispensed with. Now Government is the prime obstacle in the way of rapid transit, and it is an obstacle chiefly because our people insist upon treating it as though it were an institution which in reality it long ago ceased to be. Government is no longer the essentially "popular" or paternal organization which our forefathers imagined it should be, and which it was in some measure in their simpler days. It has changed or developed with the times. It has been thoroughly commercialized. It exists essentially not to subserve the general interests of the people but to make money for certain individuals. The old outward form is preserved, but inwardly the change effected has been radical. Government has become the perogative or perquisite of politicians. It is therefore run for what's in it precisely as other commercial enterprises are. There are goods for sale, and the question for the purchaser to consider is the price. The advocates of rapid transit have hitherto appealed to or approached Albany and the City Hall as though they were supplicating some wise and entirely beneficient Deity. How foolish! They entered a store and prayed instead of pricing an article and purchasing.

Here is the explanation of the anomolous situation of New York in regard to Rapid Transit. The people need it. They want it. They are ready to pay for it. But the People can't deal with the political Bosses. They can't bribe—they have no fingers. They do not, therefore, form the proper agency through which Rapid Transit can be obtained. An individual, or small clique of interested investors would do very much better. They can deal with Government on a business basis, and Government to-day recognizes little that is not "business." If the people want Rapid Transit they must buy or smite—and party-bound as we all are there is no chance of the latter.

The only relief then is through cash. Some person or persons must come forward sufficiently interested in the Underground Road to deal with the authorities, and to deal with them, too, in the face of the financial opposition of the existing lines. This Moses or band of Moses will not, of course, appear so long as the Rapid Transit Commissioners and the Public insist upon an economical, scientific plan in which the people are the chief or only beneficiaries. Moses has other business to attend to while schemes upon that basis are on paper. It is simply ludicrous to sit formulating plans as we have been doing for years past in which there is neither a steal nor a big bonus for somebody. If

the underground road is ever to be built the Politician, and the Promoter must be allowed to "come in" somewhere.

THE renewal of the agitation for a limit to the height of buildings in this city starts off in good shape. The Architectural League and the Chamber of Commerce have both given it their approval, and it is further promised the support of the fire insurance companies, recently scared into abhorrence of the high building by the lossess sustained in the Home Life Building. Two weeks ago a resolution was introduced into the Council of the Municipal Assembly to procure discussion of the question, which apparently only waits for the Board of Aldermen to get through skirmishing and approve the Building Code Commission named by the presidents of the two Chambers of the Assembly, to be passed. The openings of the several previous agitations to secure a restriction of height for buildings have all been characterized by considerable spirit and a decided agreement upon the general proposition that there should be a limit. Later when it came to what that limit should be the divergencies of opinion prevented action. In the main the question becomes one of equity. For example, would it be just after allowing the Empire Building to run up to twenty-one stories to say that the owners of adjoining property shall only build twelve and give the first light and air easements for nine stories? Various suggestions have been made for getting over this difficulty, one, by this journal, to give the owners of land in different sections of the city the right to build to the maximum height already reached in the particular section in which their land is located. Presumably we are to go over the whole ground again, but it is doubtful if any satisfactory conclusion can be reached now any more than was possible in previous similar discussions. The only practical step so far attained is the provision of the charter which gives the Municipal Assembly power to fix a limit of height, but this does not go far. There are those who doubt whether an ordinance created under this provision could be enforced if anyone chose to resist it. The case for the limitation of the heights of buildings, leaving out artistic considerations which would have no standing in a court, is based mainly on probabilities of peril to life and health, but such probabilities do not forbid the development of commercial resources in other directions. If they did no railroad could be built, nor could a great many other things have been done which were quite necessary, but involved not merely probability, but certainty of loss of human life. There are some things most of us would like to see done, and which if done would undoubtedly prove of great benefit to the community, but which, however, cannot be done by legislative fiat because vital principles stand in the way of its execution. There are evils that work their own cure, and the most comfort is found in hoping that the high building is one of these. In this connection it is interesting to note that last year none of the plans filed with the Department of Buildings called for a building that would not come within any limitation the Municipal Assembly could reasonably fix and that several filed in 1897, which called for buildings that might exceed it, have not been carried out.

WHILE the reports of the discussion the other evening at the Architectural League's meeting on "The Plan of the City," make very interesting reading and it was doubtless hugely enjoyed by the participants, the practical man is likely to ask what the outcome is likely to be. To re-plan a city as old and as large as New York is a pretty big job and involves some rather appalling practical and financial features. There have been suggestions for changing the plans of other cities when the opportunities were better than we may hope they will ever be here, but they were always declared to be impractical, and the old lines were, in the main, resumed to be modified in small pieces and at long intervals, as the work became imperative and warranted by the condition of the public purse. We have read somewhere that after the great fire of London Sir Christopher Wren prepared a plan of a new city, having St. Paul's Cathedral as a central point from which the main arteries of travel were to radiate. Those who know anything of the physical aspects of London will not need to be told that the plan was not carried out. In fact, it is not in the nature of cities to be born in physical completeness, they just grow like Topsy thought she did. The great obstacle to the consideration even of a large and comprehensive plan for improving the arterial system of New York is the one of money. In the present condition of the city's debt every million dollar improvement requires that the tax valuations shall be increased $10,000,000. A moderate estimate of the cost of a few Architectural League improvements would be $200,000,000. To obtain funds for them would necessitate the doubling of the assessed valuations of, say Manhattan and the Bronx, as they are about to be reported, leaving valuations in our recent expansions to provide every day, or what may be called living, improvements. It took twenty-five years to raise our valuations from about $800,000,000 to $1,600,000,000, and even taking it that they are now $2,000,000,000 we have to go back fifteen or sixteen years to find a year when they were half that amount. These simple facts show that, however agreeable the prospect they raise in the mind of the citizen, the League suggestions are merely of a speculative character and never likely to evolve from their academic or larva state. It is probably better that this is so. The present generation is apt, in the pride of its rich endowment of hindsight, to condemn the work of the men who made the arrangement of the city what it is, and to conclude too hastily that it can do better than they did, but how do we know that, if we radically change that arrangement, our work will be approved by our posterity? We need not lament the poverty that will compel us to reject a new city plan if one is seriously proposed. If there is any lesson to be learned from the plan we now have and condemn as insufficient to our wants it is that one generation can see but a comparatively short way ahead and ought not to undertake to go a greater length than it can see.

WITH the opening of the year the prospect for getting more municipal work under way and more needed improvements started is improved. According to a statement issued by the Comptroller the liabilities over the debt limit as of December 31st, had been reduced to $6,000,000, after taking into account $7,000,000 revenue bonds which were to be taken up on the 1st instant and thus leave a favorable margin of $1,000,000. By the increase of the tax valuations a further borrowing power of at least $30,000,000 will be created, and the Legislature will be asked to permit the $31,000,000 of county debts which were assumed under the charter to be put back upon the counties. If this permission is obtained the total borrowing limit will be increasing to upward of $60,000,000; if not there will only be such margin as the increased assessments create. As regards the latter the Tax Department appears to be quite anxious to prepare the minds of property owners in the borough of Manhattan for the large increase of valuations made there. The latest statement—one of several that have appeared in the past sixty days from the Department—contains this significant paragraph: "Owing to the conditions which have come by reason of the consolidation of the various boroughs into the greater city the requirements of the greater charter in regard to the equalization of values, it necessarily follows that the Borough of Manhattan must bear the burden of increased valuations." This remark will not surprise readers of this paper, who were sometime ago prepared for the changes which the opening of the assessment books on Monday next will disclose. An increase of $300,000,000 in tax valuation and a tax rate of 2.40 will call for $7,200,000 as a first cash contribution from the property owners of Manhattan and the Bronx towards a consolidation that they did not want.

ALBANY CORRESPONDENCE.

Albany, Jan. 5.—The Legislature of 1899 met yesterday, and, after electing its presiding officers, adjourned for a week to permit of the construction of its committees by the leaders of the two great political parties; for there is courtesy in such matters, even with a Republican majority, the Democrats of prominence are permitted to select the committees for representative Democratic Senators and Assemblymen.

It is already apparent that there may be some rapid transit legislation. The Tammany Hall Senators and Assemblymen informed "The Record and Guide" correspondent this week that they should follow Mr. Croker's lead in demanding that private capital should build the proposed underground road. The Republican members of the Legislature from New York think that some rapid transit measure of importance will be passed, and are evidently waiting for instructions from their political chieftains. It will be remembered that Senator Timothy E. Ellsworth, Republican President pro tem. of the Senate, introduced a bill at the last session of the Legislature to abolish the present Rapid Transit Commission of New York, and substitute for them a Board to be appointed by Mayor Van Wyck; half to be Republicans and half Democrats. It is not likely that Governor Roosevelt would give his consent to any such measure. Governor Roosevelt has exhibited a personal interest in the matter by inserting the following paragraph in his message: "I call the attention of the Legislature to the need of improved facilities for rapid transit in the City of New York. As the city extends the need for the establishment of an improved system of rapid transit becomes more and more imperative, and the Legislature should take every means to find out the best system to adopt."

The chief legislative measure presented at the brief session of yesterday was an amendment to the Constitution providing for biennial sessions of the Legislature, which, if adopted, will pre-

vent that annual tinkering with the charter of New York which is so harmful to the interests of its people. This amendment has already passed one Legislature, and Governor Roosevelt commends it in his message. If adopted by the people at the Fall election it will go into effect in 1902, when there will be no Legislature.

The following New York bill was presented to the Senate:

Ahearn (Int. No. 2).—Providing that each school board in New York shall have power to adopt by-laws fixing the salaries of the borough and associate superintendents, of principals and branch principals, and of all other members of the supervising and teaching staff. Then follows the new provision that "no regular teacher in the public schools of the boroughs of Manhattan, Bronx and Brooklyn, shall be paid a sum of less than $600 per year; nor shall any teacher, after 10 years of service in the public schools of said boroughs receive less than $800 per annum; nor shall any teacher, after 15 years of service in said schools receive less than $1,200 per annum; and no vice-principal, head of department or first assistant in said schools be paid less than $1,400 per annum; and no male teacher, after 12 years of service in said schools, shall receive less than $2,160 per annum; and the salaries of the women principals in said schools shall be increased by the addition of $250 in each year until they shall receive the sum of $2,500 per annum; and the salaries of the male principals in said schools shall be increased by the addition of $250 in each year until they shall receive the sum of $3,500 per annum; and no woman principal of 10 years' service as principal in said schools shall receive less than $2,500 per annum."

Governor Black vetoed this bill of Senator Ahearn's on the express ground that under the New York charter the city authorities already had the authority to increase the compensation of school teachers. Mayor Van Wyck approved of the bill last year. It would largely increase the city's expenses.

No other bills of interest were introduced in the Senate. None was introduced in the Assembly.

THE YEAR IN REALTY.

But for the interruption caused by the war with Spain, the year 1898 would, in all probability, have constituted the most active twelvemonth in the recent history of New York real estate. As it was, the stated consideration of the conveyances recorded in 1898 was smaller than that of any year since 1879.

The year opened auspiciously. The contraction movement inaugurated by the panic of 1893 had evidently culminated in the preceding summer, and since October there had been a gradual revival of business in the private sales' market. The outlook was favorable in commerce and the productive industries. But, above all, two new and permanent forces of the first importance were beginning to make themselves felt in a manner calculated to give a fillip to the real estate business, namely, cheap money and the electric trolley. The only element of apparent uncertainty in the situation was the effect which the consolidation of Greater New York would have on real estate interests in Manhattan and Bronx, and serious danger from this source was scarcely apprehended.

About the middle of January the Emigrant Industrial Savings Bank, which was carrying $28,000,000 of real estate loans, announced a reduction of its rate of interest from 4½% to 4%, the change affecting not only future loans, but also existing loans overdue, and all others as they should become due. The action of the Emigrant Industrial Savings Bank was merely an early recognition of an accomplished fact: that the average rate of interest had fallen in consequence of economic forces in operation throughout the community. Nevertheless, it served as a formal notification of that fact to the general public, and was followed more or less promptly by similar, though not necessarily identical, action on the part of other leading institutions. The rent returns from large and important classes of improved realty had for a long time been tending toward a 4½ per cent. basis, with the result that a mortgage was becoming more attractive as an investment than the fee simple. The lowering of the rate of interest restored the normal relation between the money lender and the real estate owner. The consequence was three months of cumulative activity in the private sales' market. The buoyancy of the market during the first quarter of the year was well illustrated by the circumstance that even the destruction of the "Maine" did not suffice to cause a diminution in the weekly reports of real estate transactions, although lending institutions presently began to withdraw from the realty loan market. It was not until war became a certainty by the recall of Consul-General Lee and the President's Cuban message that business came to a practical standstill.

The weekly average of the sales reported in our Gossip column, from January 1 to April 2, was 58, and of the stated consideration, $1,271,679. The high-water mark was touched in the week ending March 19, when the stated consideration rose to $3,706,085. During the nine weeks from April 9 to June 5 the average number of sales fell to 35, and the stated consideration to $613,994. The drop was caused by a pronounced stiffening of the money market in anticipation of heavy government loans, and real estate was abandoned by all but professional operators, who, by trading among themselves, endeavored to keep up a show of activity. By the second week in June, however, the absence of government demand for all but a very small fraction of the surplus private capital had been demonstrated, and the private sales' market took a fresh start until the inevitable summer dullness settled down upon it after the first Saturday in July.

No competent study has yet been undertaken of the influence of the trolley on New York realty. The fact is patent, however, that the recent improvement in surface transportation, including the admission of the Brooklyn lines to Manhattan, over the bridge, has had a quickening effect on suburban property. All through the year the activity in the Washington Heights district and in Flatbush, part of Flatlands, and New Utrecht, has been very marked. This activity was especially noticeable at the times when more centrally-located property remained immovable, the purchasing of cheap homes by prosperous mechanics, clerks, and small tradesmen continuing uninfluenced by temporary movements in high finance.

Although, by comparison with recent years, the private sales' market was prosperous during the first quarter of 1898, there were few transactions of large individual importance. Some movement in mercantile property, chiefly of the speculative class, was apparent. But the only transaction which made any popular impression by virtue of its magnitude, was the trade of the German-American Syndicate Building for the Wallace and Beard Buildings, including that on the northeast corner of Broadway and Howard street. Business was chiefly confined to East Side tenement properties suitable for reimprovement, to uptown dwellings and flats and vacant lots. In other words, with the exception of housebuyers and investors in flats, speculative builders and building loan operators figured most prominently in the weekly market reports. The most important transaction in vacant land was the purchase of two and a-half block fronts on Riverside Drive, north of 79th street, with many lots on the side streets adjoining, by Clarence True, which saved a big section of that avenue from the threatened desecration of the flat builder.

The effect of the war on the lot market may be inferred from its effect on the building industry. During the first quarter of the year the number of buildings projected decreased only 3.2 per cent., as compared with the first three months of 1897, and the estimated cost of the projections fell off only 9.3 per cent. On the other hand, from the beginning of April to the end of May, the records showed a diminution of 44 per cent. in new buildings, and of 40.1 per cent. in the estimated cost, as compared with the corresponding months in 1897, which year, by the way, was one of the busiest in the history of New York speculative building. The slight decline in constructional work during the opening quarter of the past year was, no doubt, due chiefly to the stoppage of public improvements by the city government. In other respects, however, the effect of consolidation on Manhattan and Bronx has not developed sufficiently to admit of profitable discussion.

Despite a temporary recovery in June, the half-year, from April to September, inclusive, was exceptionally dull, and dragged down the record of what promised to be a prosperous twelvemonth. The six months of inactivity need not detain us. They produced no transactions tending to readjust values or fix the character of neighborhoods. Nevertheless, they did have an important bearing on the subsequent course of the private sales' market. The summer renting business disclosed a pronounced improvement in the demand for dwellings and first-class apartments, and for commercial housing. Consequently, since the opening of the current private sales' season, in October, a ready market has been found for lots in upper 5th avenue, Central Park West, Riverside Drive, the Boulevard, and other residence streets of the better class, as well as for property in the wholesale section of Broadway, and in the new mercantile district between 17th and 23d streets. Not a week has passed without one or more notably large transactions. Big operators, who have long remained absent from the market, are again figuring in the weekly news of reported business, and mercantile property, long unsaleable, is once more finding investment purchasers.

To the three months' period just ended belong such deals as the Stock Exchange purchase in Broad street; the William Waldorf Astor purchase in 5th avenue, near 56th street, from the Bonner brothers; the Harlem Casino sale; the Columbia College trade; the Carnegie purchase, in 5th avenue, extending from 90th to 92d streets; besides eight sales in Broadway. During December alone five transactions took place in 5th avenue property below 59th street, and seven in 5th avenue, opposite the park. And the year closed with certainly one of the busiest midwinter holiday seasons on record.

The auction market reflected rather more than that of private contract the unpropitious public circumstances of the year; though, as far as voluntary offerings were concerned, a good many that were put up failed to sell because of the lengths to which protection was carried. Not only was the market injured by the divergences of opinions as to values between would-be sellers and probable buyers, but a suspicion of the probability of protection kept bidders away from voluntary sales. This was natural where the offerers had to appeal to a market so largely professional as last year's was. These matters together explain the many withdrawals and the dull days that marked the year, and helped to produce the unsatisfactory total of business done, which, according to the figures given in our last issue, was nearly $8,000,000 less than the total of 1897.

What real active demand developed was principally for lower

East Side tenements and old buildings, especially those in the congested sections, 3d avenue store and tenement parcels, and business parcels in the middle section of Manhattan above 20th street.

The first parcel of any importance to be offered was No. 22 Maiden lane, which failed of a bid on the announcement that none that was not above $60,000 would be accepted. Theiss' Concert Hall, on 14th street, was sold in January for $139,179. The Riker properties, on Water street, James' slip, and Madison street, and the Bowery, sold very well in February; and in the same month two of the most successful sales of the year took place. One of these latter embraced parcels on Clinton place, 36th, 19th and 110th streets, which realized $131,825, or about $31,000 more than an estimate made prior to the sale. The second of these was a partition sale which realized about a quarter of a million of dollars, and much of the property sold went to outsiders. These sales raised expectations of a better market, which, however, were soon dispelled, for early in March the estate of the late Henry P. De Graaf put up a large amount of property, and although about a quarter of a million dollars was taken in, prices individually were not good, and a large part of the offerings was withdrawn. The Cushman estate soon after offered some parcels on 15th and 21st streets, but bought them in. In the same month the Morganthau purchase in the 23d Ward, known as the Huntington tract, was offered in lots; 63 lots were sold, but the bids revealed a want of proper appreciation of the value of the property, and curtailed the sale. Subsequent transactions must have created regrets in the minds of those who attended, but so far as the auction market was concerned, the sale cannot be considered a success. Another notable sale of last spring was that of the Prescott Hotel, on the northeast corner of Broadway and Spring street, which produced a sum equivalent to $49.45 per square foot of the ground on which it stands, and considerably lowered the per square footage record for that immediate section.

Much of the dullness of the early spring was attributed to the outbreaking of war, and the agitation that preceded it, and following the naval victory in Manila Bay there came a little improvement, though displayed chiefly in small takings. At the sale of the Bettman properties in May, though quite desirable in many respects, a few bargains were obtained by fortunate operators, but, as had become customary, part of the offerings were withdrawn for want of adequate bids. The next four months, June to October, were characterized by dullness, enlivened now and then by the sale of some large parcels in foreclosure, all of which went to holders of mortgage liens. These were a lease of the Casino, the Olympia Theatre, the Grenoble apartment house, and the hotel of the same name, and a vacant lot known as No. 634 Broadway. With November there was a little improvement, though there was little disposition to test the capacity of the market by voluntary offerings. The New York Athletic Clubhouse, on 6th avenue and 55th street, which, like much other property that failed to sell at auction last year, has since been sold at private sale, was put up and the only bid for it, $2,500 over the mortgage of $125,000, was refused. Last month saw the sale of the "Gerlach" and Nos. 35 and 37 East 20th street, both in foreclosure, and both to mortgage creditors.

The foreclosure record of the year, which will be found summarized in the table below, and compared with that for 1897, shows for last year not only a considerable falling off in the number of parcels announced for sale, but also a disproportionately large amount of the total sold going to plaintiffs in the foreclosure suits. The falling off in foreclosure sales cannot be regarded as a misfortune to realty in general, though it, of course, lessened the proceeds of the Salesroom. The small demand that the year displayed, and the hesitation of owners to come to the public market in order to realize on their holdings, are other matters. It may be presumed that with the return of confidence and the growth of general business, the investing public will come more and more to favor realty purchases, and will be as willing to make them in the Salesroom as by negotiation. Whether this is so will be learned when bids are actually asked for the important properties which are already announced for sale in the coming near weeks:

THE FOUR-FAMILY FLAT.

The changes that have taken place, in this city, during the last 25 or 30 years, in the arrangement, construction and cost of four-family tenement houses, occupying the space of an ordinary city lot, are interesting, not alone from the standpoint of the investor, for these modifications form a subject of interest likewise to the large number of persons living in this kind of dwelling-house. Many improvements, affecting both the comfort and safety of the occupants of these houses, have been made since the existence of the type shown in Figures 1 and 2, and which are fair representations of the four-family flats; that is to say, a flat sheltering four families on a floor, of about 25 or 30 years ago. In the days of these houses fireproofing of halls was not considered necessary, and the dumb-waiters were in plaster shafts. Where shafts were provided for ventilation they were neither built of fireproof nor even incombustible materials, and were closed at the top by skylights, which at most allowed an inadequate circulation of air to properly ventilate each apartment. See Figures 3 and 4. These plaster ventilating shafts served more to convey bad air from the lower to the upper rooms of the house, and, furthermore, they proved to be serious sources of danger in conflagrations, as by means of them fire made rapid progress throughout the house. They were, however, the first steps that were taken toward securing safer and more adequate shafts or courts for ventilating and lighting interior rooms.

Open shafts of brick were not in use, and the restrictions governing the buildings, with the exception of the ordinance requiring fire-escapes, which has been in existence since 1860, the date of the first building law, called for little else than that there should be a yard at the back to supply air and light to the apartments opening on the rear portion of the lot. Many of these tenements were converted dwelling houses of that period, and, as these occupied little more than half the depth of the lot, square tenements, providing for one family on a floor, were erected on the rear of the lot. There were no water-closets in the houses, these being situated in the yards, and one line of pipe with a slop-sink at every floor, comprised the plumbing, which, in comparison with that in use at the present time, was far from sanitary. In about the year 1879 open shafts constructed of brick were introduced, and the shafts and rooms in four-family flats were disposed as indicated in Figures 5 and 6. This arrangement was the prototype of what was known as the "Dumb-bell" plan. Light and vent shafts were required at this time, and were of great use in ventilating the interior rooms. These shafts generally contained an area of about 120 sq. ft., and were usually not less than 2 ft. at their narrowest part. They were incombustible, and in this respect were an advance over their predecessors, although in other respects they showed little improvement. About this time closets were placed on each floor, two being provided for each floor, and in many cases each apartment or set of rooms contained a sink and wash-tubs. The Act of 1882 stated that the air and ventilating shafts should contain at least 215 sq. ft. In 1887 this area was increased to 265 sq. ft. These requirements brought about a change in the shape of the shafts, and although the long, narrow shaft, was widened to 2 ft. 4 ins., it was necessary to further increase their width to 6 or 7 ft. on each side for about 11 ft. at the middle of the house in order to gain the required area. (See Figure 6.) In this narrow portion of the house, situated between the front and rear apartments, the stairs, water-closets and dumb-waiter were placed. The houses built in this period could not occupy a space exceeding 78% of the lot.

In 1897 this percentage was decreased to 75%, and a provision was made to increase the width of the shafts 4 inches for each additional story over 5, and no very radical changes have taken place between that time and the present. Figure 7 shows a tenement of the type most in use at the present period. The law requiring the construction of fireproof or slow-burning hall partitions, flue linings in chimneys, the placing of iron beams on the first tier above the cellar, and the precautions called for in the construction and situation of the stairs to the cellar, was enacted in 1892. These innovations, together with the requirements in regard to brick shafts, fire-escapes and inside plumbing, at present comprising wash-tubs, sinks and water-closets, have greatly increased the cost of erecting one of these tenements, and whereas they could be built 25 or 30 years ago for about $11,000 or $12,000, to build one now, using only soft trim, and placing the stairs to the cellar on the outside of the house in a court, thereby saving the expense of iron doors and fireproof partitions, would cost in the neighborhood of $15,000 or $16,000. The cost has gradually increased since about 1880, the time when the first precautions against fire took form in the brick vent shafts that took the place of the old plaster shafts of the primitive tenement. The constantly improving methods of construction were naturally more expensive than the simpler wood and plaster construction, but in the last few years this expense has been partially compensated for by the decrease in the cost of the materials themselves, due to improved methods of manufacture, shipping, etc., competition and other similar factors in the building material market, so that for the past few years, owing to this evening process, and to the fact that since 1892 few radical changes have been made in the tenement-house law, the expense of erecting these dwellings has not increased materially.

For the last few years every imaginable solution has been tried of the one-lot tenement problem, and many architects have made excellent plans by placing three houses on four lots, but this procedure necessarily is not so resourceful to the investor. Other schemes have been advanced for placing four houses on a plot 100 ft. x 100 ft., grouping them around a central court so that air and light reach all the rooms which are disposed on both sides of a hallway extending around the middle of the building, and it is safe to say that the best solution of the problem, from the standpoint of health and comfort as well as economy, lies in this direction.

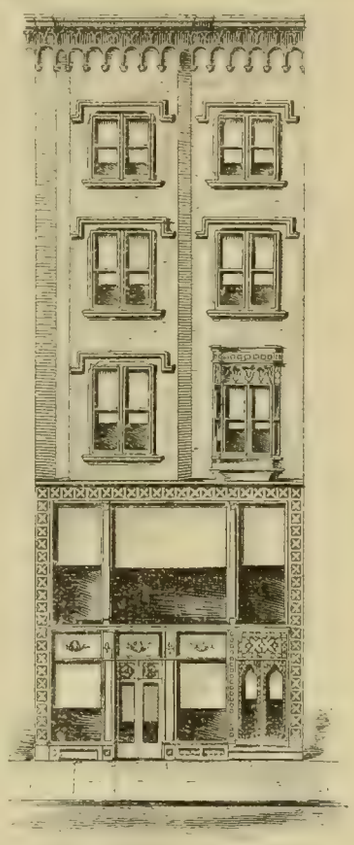
Questions and Answers.

TENANCY BY THE WEEK.

To the Editor of THE RECORD AND GUIDE:



Kindly give your opinion on the following: In case of a tenement where rooms are rented by the week what kind of notice must be served on the tenant if the landlord wishes to get possession? Would a verbal notice be sufficient?

Answer.—A verbal notice would not be sufficient if it is desired to terminate the tenancy. The notice should be in writing. If it is desired to put the tenant out for non-payment of rent or for holding over without the permission of the landlord, process of the court must be issued. —Law Editor.

A MODEL OFFICE.

The accompanying illustration shows the building No. 11 West 34th street, recently remodelled by Mr. Wm. J. Roome for occupancy by his real estate office, stores and model bachelor apartments. Considering its location, opposite the Waldorf-Astoria, in the centre of the clubs, hotels and places of amusement; its high finish and perfection of arrangement and fitting, this is a model house for its new uses. It would be difficult to find a better arranged and appointed real estate office in town. This is as it should be. Mr. Roome entered his father's real estate office, which was founded in 1852, after his graduation from the New York University, and his business training was most thorough. He is the manager of many estates, and the adviser of and appraiser for many real estate owners and loaning institutions. The three upper floors of this building have been divided into bachelor apartments of differing sizes, though all possessing those accommodations and conveniences that are now considered necessary in apartments of this class. Special attention has been paid to the plumbing. The rooms are tastefully decorated, and contain mirrors, mantels, open fire-places, hardwood floors, electric bells, speaking-tubes, gas and electric light fixtures, etc. The suites consist of two, three or more rooms with bath-rooms furnished with nickel-plate piping and porcelain tubs. On the fifth floor each apartment has one large studio. Naturally, with these attractions, the apartments have all been promptly rented. The perfection and success of this operation is due to Mr. Roome's long experience, coupled with a natural adaptability for the real estate business.

NO. 11 WEST 34TH STREET.

THE ARCHITECTURAL LEAGUE.

The regular monthly dinner and meeting of the Architectural League was held on Tuesday evening, at the rooms of the League, in the Fine Arts Building, on West 57th street. President Bruce Price presided, and the speakers were Geo. B. Post, Charles Stewart Smith, Julius Harder, Edward P. North, Milton See, A. H. Thorpe and Charles W. Stoughton. Plans were submitted by the speakers for the rearrangement of streets, avenues and parks in conjunction with the terminus of the new East River Bridge. Mr. Post said in his remarks that the modern sky-scraper, besides being unsightly, except where treated as a tower, is prejudicial to health in the fact that it darkens the streets and keeps them damp, and advocated the passing of a law to limit the height of buildings. Charles Stewart Smith assured the members of the League that in opposing these very high buildings it would have the co-operation of the Chamber of Commerce, as well as of the fire insurance companies.

A circular announcing the date and arrangements for the 14th annual exhibition (1899) of the Architectural League has just been issued. The following is the programme in brief: Exhibit entry blanks returnable, January 26th; last day for reception of exhibits, February 2d, 6 p. m.; press view, February 9th, 10 a. m. to 4 p. m.; annual dinner, February 9th, 7 p. m.; League reception, February 10th, 8 p. m.; public exhibition, February 11th to March 4th inclusive; public lectures, February 15th and 22d and March 1st; exhibits discharged, March 6th. The committee on Annual Exhibition consists of: Bruce Price, Chairman, 1133 Broadway; Frederick S. Lamb, 360 West 22d street; F. Wellington Ruckstuhl, 939 8th avenue; George L. Heins, 215 West 57th street; William E. Stone, 215 West 57th street; C. H. Israels, 194 Broadway; Charles A. Rich, 35 Nassau street; Edward B. Tilton, 32 Broadway; J. M. Hewlett, 16 East 23d street; Francis C. Jones, 253 West 42d street; C. Y. Turner, 35 West 14th street; Herbert Adams, 42 West 15th street. Circulars containing full details with directions for framing, packing and shipping and accompanied by entry blanks may be obtained on application.

TRADE NOTES.

MURESCO.

Muresco is a decoratve material manufactured by Benjamin Moore & Co., with offices and works at 244 to 258 Water street, Brooklyn. The attention of architects, builders and contractors is called to the advantages of Muresco as a substitute for whitewash and like materials for use in large buildings, such as factories, warehouses, schools, office buildings, etc. Muresco has been extensively used on walls of light, air and elevator shafts, and makes a bright, clean, healthy and permanent finish at a small cost, as it possesses superior covering capacity and requires less labor in application than any other material. It is made in white and fourteen beautiful tints, and architects should write the manufacturers for their Tint Book and descriptive booklet, which are both handsome and interesting.

THE LUNDEL MOTOR.

"Catalog No. 58" of the Sprague Electric Company is an elegant production in a green, gold and red cover, given over to a description and illustration of the well-known Lundell Motor, which the company named manufactures, and the use of which is spread over the whole civilized world. Any one seeking for electrical power, should send for this "catalog," in which they will find clear, well-written descriptions, perfectly printed, and the finest and most instructive of engravings. The book, artistically and practically, is a credit to the company that issues it, and a suitable advance agent of the excellent motor it describes.

The Building Trades

NEW JERSEY NEW YORK LONG ISLAND

MATERIAL MARKET.

BRICK.—Navigation is closed on the Hudson, so that no North Rivers are arriving at present. Ice has also formed so as to prevent Jersey brick from coming forward. The quantity of North River brick covered on barges for the winter market is not quite as large as it was this time last year. Soft weather, however, will probably, within a week, let out large Haverstraw shipments. There is no change to speak of in prices, but indications point strongly to an increase in values. Prices at present range from $5.50 to $6.50 for grades from commons to specials. Pales are in quick demand at $3.75, and occasionally are bringing $4.00. The demand for New Jerseys is quiet, with prices ranging from $5.50 to $5.75.

LIME.—The arrivals in Rockland are light. Manufacturers are holding firmly for prices quoted last week, and are not pushing sales. This is due to the fact that there is very little lime in the market, the quantity being far below that of last year at this time, and the usual dull conditions of the season. Holders are awaiting the coming of the regular season before seeking trade. The facilities for transporting lime are greatly reduced, and unless vessels can be procured from other lines of trade, this condition will seriously affect the shipping of lime when the busy season arrives. Very little State lime is coming at present. Manufacturers bring what they need, but dealers are not taking much, owing to the light requirements of the market. Stocks in this market are not large. Prices are firm and unchanged at 75c. for common and 90c. for Jointa.

LATH.—No lath arrived this week, and there are only a few, about 1,000,000, on the way. Dealers are asking $2.25 to arrive.

CEMENT.—There is no Rosendale afloat. Stocks in the hands of dealers are light, and they are sending out orders freely, so that there will be a scarcity at the opening of navigation, which will probably be about the latter part of March. All that is arriving is coming by rail, and manufacturers of standard brands are asking 95c. a barrel. Trade in domestic Portland is quiet, Government work having shut down and large contracts closed for the winter. What trade there is is in the hands of the dealers. In accordance with the general conditions of the season, very little arriving. The demand for imported Portland is seasonably quiet, and shipments are very light; all that arrives, however, is pretty well absorbed. There is practically nothing on the way, and stocks in first hands are small. There is a tendency to advance which will probably begin to materialize during the early months of the year.

OIL.—The market is firm, with prices steady and unchanged. Seed is still about $1.16 for cash, Chicago. No out-of-town oil is procurable under 40 cents, and out-of-town dealers are hard to approach for futures. New York dealers are buying pretty freely in anticipation of an advance in values. Prices are: Raw oil in 5-bbl. lots, 41c.; smaller quantities, 42c. Boiled oil is 43c. and 44c. Calcutta is 54c.

LEAD.—Trade in lead is seasonably good. Pig lead has advanced to $3.90, tending to keep prices firm in white lead. Everything looks favorable for a strong and steady market, with a tendency for values to advance. Prices at present are unchanged from last week's quotations.

PAINTS.—Trade is seasonably quiet, with no material change in prices.

GLASS.—There is a good amount of current business being transacted in glass for this time of year, and prices are firm and unchanged at 80 for plate, 80-10 for French window, and 80-20 for American window.

NAVAL STORES.—Trade in spirits of turpentine ruled very quiet, with, however, a firm tone; holders asking 46c. for machines. Buyers were not disposed to operate, and only a few jobbing sales were made at this figure. A very active trade is not looked for until the middle of the month. The market closed quiet and firm at 45½c. for Southerns, and 46c. for machines. The market for tar was dull and heavy, owing to ample supplies and moderate sales. Prices for regulars, $1.65 and $1.70; oil barrels, $3.40. Pitch was quiet, with only a small jobbing trade, at $1.60 and $1.65.

LUMBER AND HARDWOODS.—The season just closed shows a decided improvement over the year before. Many dealers could have handled more business, but there are few who had really unsatisfactory results. The trade is in good condition for this time of year, and the indications for the year point to a season of prosperity; of extensive operations and good prices. There is a shortage of Hardwood stocks, and difficulty will be experienced during the early months of the year to find material with which to fill orders. In spite of this prices do not advance, even in the face of improving conditions. Large quantities of stock are going at low prices, and there will be a marked shortage in hardwoods, together with a rising of values when the large demands of the early spring trade appear. The same general conditions just noted apply in a certain degree to yellow pine. The mills and wholesalers are busy, with prices nearly at rock bottom, although they have shown a tendency to advance lately. There is a good current demand for North Carolina, with prices lower than would seem consistent with the general conditions of the market. Trade in spruce is quiet and steady. A few belated Eastern vessels arrived in port the latter part of last month. West Virginia stock is firm but quiet, and there is a scarcity of New York State spruce in 9 and 10-inch sizes. Cypress is in fair demand at good prices. Dry stocks at mill are low, and there is a corresponding tendency toward an advance in values.

A proposition to make the ordinance regulating the issuing of licenses to plumbers for making connections with sewers, etc., applicable to the whole of Greater New York, is now under consideration in the Board of Aldermen.

The work of enlarging the membership of the Joint Legislative Committee is meeting with very encouraging results. Committees from most of the prominent building trade associations are being formed, and it is expected that, within a few days, the Joint Committee will be organized for active work.

Mr. John K. Turton, after an experience of several years upon buildings designed by the well-known architect, Bruce Price, has engaged in the contracting business, being associated with J. Dall, of No. 48 West 22d street. Mr. Dall's energy, and the conscientiousness with which he has conducted his contracts, have already won for him many warm friends, and the addition of Mr. Turton's ability and experience will still further improve the service which he offers to architects and the public.

George H. Frey, a prominent civil engineer, died at the Presbyterian Hospital on January 3d, at the age of about 35. Mr. Frey had been suffering for some time from an internal disorder and recently submitted to an operation in hope of relief. A second operation was found to be necessary, to which, owing to extreme weakness, Mr. Frey succumbed. He was a member of the Building Trades' Club, and had conducted many extensive engineering operations in South America and South Africa.

The annual entertainment and reception of the Manhattan Branch of the Association of Master Plumbers will be held at the Central Opera House, 67th street, east of 3d avenue, on Thursday, January 12, 1899. Elaborate prepartions have been made by the entertainment committee. Among other features there will be an orchestra for dancing and a full military band for promenading. A large attendance is anticipated, including many prominent members of the trade from Greater New York and other cities.

The number of alterations filed in 1897 was 1,808, at an estimated cost of $7,582,323.

A statement of the number of permits issued in Brooklyn for new buildings and alterations during December, and the estimated cost of the same is: Brick buildings, 112; frame buildings, 205; total building permits, 317; alterations, 160; total number of permits, 477. Estimated cost of brick buildings, $646,050; estimated cost of frame buildings, $529,075; total estimated cost of all buildings, $1,175,125; estimated cost of alterations, $84,813; total estimated cost, $1,259,938; total estimated cost of permits issued in December, 1897, $1,940,327; excess in favor of 1897, $680,389.

There was a very happy informal reunion yesterday afternoon of the "Old Guard," or the eastern founders, of the National Association of Builders. The Association was formed about twelve years ago, and is made up of representatives of the Mechanics' and Traders' Exchanges, or similar organizations, in the larger cities of the Union. The "Old Guard" was entertained at the rooms of the Building Trades' Club, and a dinner at the Arena followed in the evening. About 50 members from Philadelphia, Boston, Baltimore, Chicago, Detroit and other cities attended the reunion.

At a meeting of the Manhattan Branch of the Association of Master Plumbers, held at No. 155 East 58th street, on the evening of January 3d, the following officers were elected for 1899: Pres., I. J. Brown, of Kirchhof & Brown; vice-pres., J. W. O'Brien, of O'Brien & Ryder; recording secretary, J. R. Johnston, of Johnston & Kelly, financial secretary, A. A. Rhodes, of Thain & Rhodes; treasurer, James O'Brien; sergeant-at-arms, C. A. Walsh; marshall, Wm. Kirchhof, of Kirchhof & Brown; trustees, T. J. Toumey, chairman; I. O. Shumway, John Renehan, Wm. Montgomery, of Montgomery & Patterson, and John Mitchell, of Mitchell & McMeih. There will be a meeting of the executive committee of this Association at No. 155 East 58th street, on Monday, January 9th, at 8 p. m.

The following is a comparative statement of the receipts of the Department of Water Supply for Croton water for building purposes for the months named:

Total	$36,833.97	$46,833.54	$40,575.74

Rate, 10c. per 1,000 bricks.

These figures include stone work, which is figured as brick and lumped with brick; and frame houses in 23d and 24th Wards. The Department records, therefore, do not show exact number of bricks paid for, nor do the records show the following items:

Buildings in which water is used through meter. These are paid by meter measurement in Meter Department as charges for general consumption.

Buildings in which no Croton is used; well or spring water only being used; no charge.

Alterations and extensions, using less than 10,000 bricks; not charged.

BUILDING CODE AND HIGH BUILDINGS

The Board of Aldermen adopted, on Tuesday last, the following preambles and resolutions:

Whereas, the large fire, corner Broadway and Warren street, has demonstrated the danger of extremely high buildings, and the truth of the contention that they are beyond the reach and control of the Fire Department; and,

Whereas, the new building code, which the Municipal Assembly will be called upon to consider will probably not be adopted for some time to come, and when adopted will not affect the buildings already constructed; therefore

Resolved, That the Committee on Building Department be and it is hereby instructed to make a prompt and careful examination of the powers the Municipal Assembly possess to compel the placing of proper safety devices in existing buildings.

Resolved, That if such power does exist, to prepare and present an ordinance that will require in all high buildings—in the upper stories thereof—automatic sprinklers, or such other contrivances as will answer the same purpose in case of fire. That if we do not possess the power to compel such protection, then the said Committee on Building Department shall prepare an act for presentation to the Legislature that will either provide a law as contemplated, or will vest the right to enact such an ordinance in the Municipal Assembly.

The Board also discussed a committee report recommending the approval of the Commission on Building Code, nominated by the Presidents of the Council and the Board. An amendment to add George B. Post, Theodore Cooper and the Chief of the Fire Department to the Commission was negatived. A motion to adopt the original report was put, but failed to receive the necessary three-fourths vote. A vote to reconsider was adopted, and the report made a special order for Tuesday next.

In the Council the consideration of a committee report recommending the reference of the question of limiting the heights of buildings in the City of New York to the Council and Aldermanic Committees on Building Department and Public Buildings, Lighting and Supplies, and the proposed Commission on Building Code, was postponed for a week.

The business of the private sales' market, as regards both extent and quality, has been nearly up to the standard of the past two weeks, and brings to a fitting close certainly one of the most active midwinter holiday periods on record. It is gratifying to note that, while the demand for private houses and speculative holdings shows no abatement, investment purchases of mercantile properties and elevator flats are growing more numerous. Unfortunately, the price paid by David W. Bishop for No. 4 Liberty street, has not been disclosed. The reduction in the rate of interest and the improvement in surface transportation occasioned by the electric trolley are new forces which would be likely to exert an upward pressure on values in the financial district in particular. The southeast corner of Liberty and William streets, is owned by Mr. Bishop's sister. This week's purchase gives them possession of a plot 121.6x81.6, on which they will erect a modern office building. The purchase of No. 67 5th avenue, a 5-story business building, on a Van Buren leasehold, 25x100, by Mrs. Margaret C. Stitt, is another noteworthy investment transaction in mercantile property. Leaseholds, by the way, are also a species of property which is bound to take an upward turn, in consequence of the reduction in the interest rate. The 6-story elevator apartment house, No. 44 East 79th street, and the 5-story apartment house on Columbus avenue and 88th street, which sold for $75,000 and $110,000, respectively, occupy conspicuous places in a comparatively long list of transactions in flats and apartments. The total number of transactions given below is 48, with considerations given in 10, and amounting to $690,500. Corresponding figures for last week were 54, 8 and $567,500, respectively.

There were none but foreclosure auctions in the Real Estate Salesroom this week. Seventeen parcels were listed, of which twelve were sold, all except two going to the plaintiffs. The following withdrawals and adjournments to dates beyond the coming week are to be noted: 15th street and 3d avenue, Wakefield, Peter F. Meyer, adjourned to January 25; No. 367 Cherry street, D. Phoenix Ingraham, withdrawn; Frankfort and William streets, Bryan L. Kennelly, adjourned without date.

Peter F. Meyer's sale of Bathgate estate lots will take place on Tuesday next, 10th inst., and notice of the sale will be found in our business pages. These lots are located in the 23d and 24th Wards, on 3d, Washington, Wendover, Webster, Franklin, Bathgate, Brook, Fulton and Arthur avenues, 136th, 144th, 171st and 177th streets, and St. Paul's place. As remarked last week: "The last sale by this estate resulted very satisfactorily to buyers, as we have had occasion to mention several times since when calling attention to the profits made on re-sales. The lots now to be offered contain some of the choicest owned by the estate, and there is very little doubt that they will be eagerly bought. The auctioneer, at No. 111 Broadway, and Turner, McClure & Rolston, attorneys for the executor and trustee of the estate, at No. 22 William street, will supply maps and full information on request.

Geo. R. Read announces in our business pages, for Thursday next, 12th inst., the auction sale, in partition, of "The Albany," a six-story apartment with stores, occupying the block front on the west side of Broadway, between 51st and 52d streets, and running back about 100 feet on the streets. This property is too well known to require lengthened description. Its offer from the auction stand will create an opportunity for making a considerable investment purchase. The terms are stated to include a liberal loan at a low rate of interest. Other particulars can be found on another page, and maps, etc., had of the auctioneer, at No. 10

Wall street and No. 1 Madison avenue, Myer S. Isaacs, No. 27 Pine street; Albert F. Hagar, No. 10 Wall street, or C. C. Suydam, No. 206 Broadway.

Richard V. Harnett & Co. have for Thursday week, 19th inst., two important auction sales, notices of which will be found in the business pages of this issue. The first is made up of quite a number of valuable leases, having from nine to eleven years to run, with options for renewals and other purposes in cases. It is difficult to recall a previous occasion when such a bunch of leases came on the market at one time, and the sale will be watched with much interest. The properties leased are located in good renting sections of East 9th, 10th, 11th and 12th streets and 2d avenue, and the details of these offerings are commended to the attention of buyers. Another property to be offered on the same day is the 4-story dwelling, No. 30 East 81st street. The auctioneers' address is Nos. 71 and 73 Liberty street, where they will furnish maps and full information on request.

Thos. A. Kerrigan will offer, in foreclosure, on Thursday, 19th inst., at No. 9 Willoughby street, the important block of apartment houses, Nos. 916-922 8th avenue, corner of 10th street, Brooklyn. Particulars will be found on another page.

BROOKLYN.

It is now pertinent to review the year just closed, mentioning the chief points which have characterized the past twelve months in Brooklyn real estate. While the year was not as prosperous as many brokers were led to expect it would be, still it was active

considering the disturbing element of the war with Spain, which so early entered into the problem.

Though the war was disturbing to all business, and to real estate in all sections, it was particularly disturbing at first to real estate in the suburban districts of Brooklyn and Long Island. Later, brokers report, their dealings in suburban properties were affected but little by the war. On the whole, the year has been a good one for this class of holdings, because of the great increase in the facilities for rapid transit which rendered living in these newer sections possible.

It is this great improvement in transportation, and particularly the one fare over the bridge, that is, perhaps, the chief feature of the year just closed. Hundreds of acres of vacant lands have been placed on the market. Hundreds of houses have been erected, and readily disposed of, because of this cheapening of the means of transportation, and there is still a large demand for more houses. Brooklyn still needs more facilities for transportation, but the year '98 has seen a noteworthy advance in the right direction. To experienced real estate men more bridges are now the prime necessity of this borough, and the more the better for real estate in all sections.

Though this boom in suburban properties has been felt in the newer sections of the borough, it seems to be the opinion among brokers that the older sections have also been greatly aided by the improvement in the trolley service. While many have left their old homes for new ones in the outlying districts, the vacated property has felt a demand from Manhattan and elsewhere, so that few of these houses have remained idle. In explanation of this fact, it is said that the increase in population has been sufficient to create a healthy demand for all classes of property, and the older sections of the city have thus been able to hold their own. Another explanation offered is that home-seekers realize that Brooklyn property in the older sections will never be cheaper than it has been in the past year. This latter explanation seems to be the more satisfactory of the two in view of the fact that values have depreciated for several years past.

While the transactions of the past week have been of that small character which precedes and follows the holiday season, there have been several matters that have made the past few days of more than ordinary interest to Brooklyn real estate men. Of chief interest may be mentioned the statement given out last Saturday that a large hotel was to be built on the southeast corner of Fulton street and Myrtle avenue. This statement has been copied widely in Manhattan papers, and has aroused not a little talk among brokers on both sides of the river. The property is owned by the Johnson estate, and fronts 75 feet on Fulton street and 110 feet on Myrtle avenue. It consists of a drug store occupied by Dr. J. F. Morrisey, Jr., and Dennett's restaurant, both of which are under lease to Dr. Morrisey, expiring May 1, 1903. From this date he has just obtained a new lease which will run for ninety-nine years. As Dennett now holds a sublease of the restaurant until May 1, 1903, Dr. Morrisey will be unable to begin work on his hotel until four years from next May. This is so far in the future that few real estate men take his hotel project seriously. He has not as yet committed his plans to paper, and will probably not do so until near the expiration of his present lease. The plan which he has now in mind contemplates a fifteen-story fireproof building somewhat similar in design to the new Mechanics' Bank Building on the opposite corner. The corner will be occupied by a pharmacy, and the main entrance will be Fulton street, with the ladies' entrance on Myrtle avenue. The hotel will contain about 175 rooms, and will have a roof garden as a special feature.

If Dr. Morrisey's plans are ever carried out the career of this hotel will be watched with the keenest interest. Whether Brooklyn can support another hotel is questioned by conservative real estate men. A hotel must depend largely on transcient guests for its revenues, and Brooklyn attracts few, if any, of this class. It is essentially a place of homes, and has less need of a hotel than cities of half its size. When people come to the metropolis for a stay of a week or two they are not apt to put up at a hotel on this side the river. Without the patronage of such people no hotel can succeed.

Commissioners Salmon and Patterson, of the Department of Taxes and Assessments, yesterday gave out a statement relative to the assessed valuations in the Borough of Brooklyn, in which they say:

Generally there has been no increase of assessed valuation except in the case of the county towns or new wards, where large numbers of new buildings have been erected, and lands that were formerly assessed as farm lands and are now assessed under the requirements of the Charter as city lots, and the further instances of water-front property, which was assessed far below its value in proportion to the value fixed upon other properties in the borough, and of property of corporations, such as railroad structures and superstructures, in the streets.

In reference to the increases in the newer wards, formerly towns, the annexation acts of those towns to the former City of Brooklyn in certain cases prohibited an increase in any one year by the Assessors exceeding 20 per cent. of the aggregate previous year's assessments, which provision of the law was repealed by the Greater New York Charter.

On the subject of assessments of personal property in the Borough of Brooklyn, it is well known that heretofore gross injustice had been done, and, through the defects of the law as it then existed, many persons who were residents of the borough were relieved of their share of the burdens of government. Under the provisions of the Charter a more perfect system was provided, and the assessment rolls of personal property have been prepared with the view of equally assessing such property throughout the borough. The system of personal taxation is now the same in Brooklyn as it was in the City of New York previous to annexation, and under such system personal property bears its share with real estate in carrying the burdens of government as equitably as can be under present conditions.

In conclusion, it may be said that, owing to the conditions which have come by reason of the consolidation of the various boroughs into the greater city and the requirements of the greater charter in regard to equalization of values, it necessarily follows that the Borough of Manhattan must bear the burden of the greater proportion of increased valuations.

Jacob Cole, the well-known real estate auctioneer, died suddenly on Tuesday morning last in front of the Beecher statue, in City Hall Park. Mr. Cole was the son of an auctioneer, and connected with Brooklyn realty and other interests during all his long life of 75 years. The daily papers have dealt fully with his life and work, and it is only necessary here to bear testimony to the high esteem in which Mr. Cole was held in the business community, and to the great regret that the news of his death aroused.

The sale at auction of the property known as the Johnston Building to the trustees of the estate of Daniel B. Fayerweather, deceased, last week, was the most important forced sale for some time. This property is Nos. 8 to 12 Nevins street, w s, 128 feet n of Livingston street, and is assessed at $100,000. It sold for $125,000. It is situated near the business sections of Fulton street and Flatbush avenue, and would, probably, have brought a better figure had not the sale taken place in a holiday week. The purchasers were the plaintiffs, and were forced to buy in to protect themselves.

Residents of the Heights section were interested in the auction sale of the apartment house, "The Fougera," which also took place within the week. This property is known as Nos. 161 to 167 Atlantic avenue, and Nos. 142 to 148 State street. It is situated on the northwest corner of Atlantic avenue, running through to State street. There are six apartments in the building, which is assessed at $125,000. The sale was to Charles A. De Vivier, the plaintiff, and included only the interest of Charles R. Fougera, who was a part owner of the property. The fact that complete title was not to be given practically confined the bidding to the plaintiff, so that no conclusions can be drawn as to what the property is worth. It was knocked down to the plaintiff for a nominal sum, $50. It is understood, however, that a partition suit has already been started. The sale under this judgment will give a clear title, and will, therefore, afford a better basis for appraisment.

In the purchase of the Timothy I. Hubbard farm, completed this week, the Germania Real Estate and Improvement Company has added another large tract to its holdings. This property consisted of fifty acres of farm land, situated just west of Flatbush avenue, opposite the older sections, which have already been improved by the company. This is the third Hubbard farm which has been acquired by this company within a short time. It is expected that houses similar to those already erected will be at once put up.

George E. Lovett & Co., of No. 26 Court street, has sold for Audley Clarke, No. 27 Montgomery place, n s, between 8th and 9th avenues, five-story American basement residence, 21.3x53x87, for $25,000. This house was built by the late Gilbert R. Barteaux. The purchaser's name was not disclosed. Also for J. J. Shea, the three-story brownstone flat, 20x65x100, No. 567 10th street, north side, between 7th and 8th avenues, to E. C. Rider for $6,400.

Johnson & Son, of No. 44 Reid avenue, have sold for James Graham, to William J. Shea, the 2-story and basement brick house, 15x100, No. 352 Van Buren street, for $3,000.

William R. Peace has sold to William Brown the three-story brick and stone detached house, 25x77, lot 38x109, on the corner of Prospect place and New York avenue. Price paid was $40,000. J. H. Roberts was the builder of this house.

Bulkley, Horton & Co., of No. 416 Myrtle avenue, have sold for L. Beard, to C. E. Bedford, the 3½-story brick extension dwelling, No. 178 Clinton avenue, for $20,000. Also for Julia Sheill to Alice Loombs, the 3-story and basement frame dwelling, No. 70 Clermont avenue, 20x100, for $5,000.

Henry W. Sherrill has sold for the Lefferts estate to C. E. Donnellon ten lots on Rutland road, Flatbush. The purchaser will erect a brownstone dwelling on each lot; also a lot on the northeast corner of Rutland road and Bedford avenue, to Dr. James Watt, who will immediately put up a handsome residence for his own use.

A. Place & Son, of No. 335 Flatbush avenue, opposite 7th avenue, have sold for William H. Reynolds the 3-story basement and brownstone dwelling, No. 80 President street, n s, near 7th avenue. The purchaser was James Moorhead, and the price paid was $9,000.

N. J. Ryan & Co., of No. 537 Myrtle avenue, have sold to Lanzier & Sons two lots on Steuben street, between Park and Myrtle avenues, and three lots on Grand avenue, also between Park and Myrtle avenues. The purchasers intend to build a manufacturing establishment on this property.

REAL ESTATE NOTES.

The two lots, 50.6x100, on Central Park West, 50.5 north of 100th street, to which the Builders' Realty Co. have taken title, brought $30,000.

Carrol C. Rawlings, of the Union Trust Company, states that the building, Nos. 557 and 559 Broadway, has not been sold to Martin & Brother.

Henry Morgenthau, retired from the firm of Lachmann, Morgenthau & Goldsmith, on January 9; he will now devote his time to real estate, retaining an office at No. 35 Nassau street.

The Merchants' Association has secured reduced passenger rates covering the entire spring-buying season. These reduced rates not only affect all the territory hitherto covered by previous excursions, but they also extend into the Southwest on more favorable conditions than heretofore.

The map publisher is usually considered an accompanying agent to activity in real estate circles. Judging from recent sales in the Borough of Richmond, and the publication of an up-to-date atlas of that Borough by E. Robinson & Co., of New York, transactions in Staten Island realty promise to be more numerous and important this year than ever before.

The report is circulated that a partition sale of the Amos R. Eno estate is to take place in February. A survey of its properties is being made, but a representative of the estate declines to say whether the survey is preliminary to a partition by agreement or by public auction. It is further reported that a meeting of the executors of the estate will take place about February 1st, when the manner of its disposition will be decided upon.

Mary M. Stewart was the buyer of the north corner of Riverside Drive and 84th street, sale of which was reported in our last issue. The size of the plot was 59.3⅞ on the Drive, 102.7⅜ on the northerly line, 52.2 in the rear, and 79.0½ on the southerly line. The seller has owned the lots for thirty years, and paid $2,000 a lot for them in 1868; he bought the four lots adjoining on the street in 1873 for $35,020. The price for the plot is $60,500. William E. Hawes & Son and James M. Stewart were the brokers.

At a meeting of the People's Committee of the Amsterdam avenue property-owners, held Wednesday night, it was decided to bring three suits by as many different property-owners not yet selected, against the Third Avenue Railroad Company, to prevent the construction of a second underground trolley railroad between 72d and 125th streets. The main ground on which the injunction will be asked for, according to the Chairman, Thomas A. Fulton, is the inadequacy of the company's consents obtained from property-owners—enough of them are said to be illegal in form or fact to make the company's right invalid.

At the meeting of the House and Real Estate Owners' Association of the 12th and 19th Wards, Thursday evening, the following officers were elected: Pres., Commissioner Conrad Harres; 1st vice-pres., Valentine Frank; 2d vice-pres., L. Lenzner; financial sec., J. Fred. Boss; and recording sec., Jacob Heil. Commissioner Harres, who has been president of the Association since its organization eleven years ago, was presented with a magnificent stand of flowers. A committee was also appointed to arrange for the next grand annual excursion, which is usually held in June. Mr. Adolph Bloch continues to act as the Association's counsel.

The Board of Education has asked the Corporation Counsel to expedite the proceedings to acquire the following school sites, which have been necessarily held up by the temporary exhaustion of the city's power to issue bonds:

Plot 150 by 201 feet, 116th and 117th streets, between 5th and Lenox avenues.

Plot of eleven lots on 128th street, Madison avenue and 127th street.

Plot of twelve lots on 145th and 146th streets, beginning 325 feet east of Boulevard.

Plot consisting of 305 to 301, inclusive, East 82d street, between 1st and 2d avenues.

In regard to the last, no Commissioners of Estimate have been appointed; to it and the second, title can be taken by the city in four months from the filing of the oaths of the Commissioners. Title to the first and third mentioned sites can only be obtained on confirmation of the Commission's reports.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

E. S. Willard, agent, of No. 26 Cortlandt street, has entire charge of renting the new "Ferguson" mercantile building, on the northeast corner of 5th avenue and 20th street. It is a ten-story fireproof store and loft building, on a lot 28.9x101 feet, with an alley on the street, and contains steam heat, gas and electric lighting, and three electric elevators, two for passengers and one for freight. Mr. Willard is now the agent for the White Building, Nos. 95 and 97 Liberty street. He reports that the six upper floors are now almost entirely rented.

The long-established firm of George G. Hallock, Jr.'s, Sons, No. 401 Grand street, have, for the convenience of their large clientele, and in keeping with modern ideas of progress, opened a down-town office at Nos. 155 and 157 Broadway. Messrs. Hallock report an excellent demand for realty in the so-called "Oriental District," and the closing of numerous sales at good prices.

Work on the Morton Building, Nos. 110 to 116 Nassau street, and Nos. 43 and 45 Ann street, is progressing rapidly, and it will be ready for tenants in April. Fredk. Zittel, the well-known broker and agent, who has charge of the renting, reports considerable inquiry for spaces therein. It is a handsome twelve-story fireproof store and loft building, with frontages of 75.6 feet on Nassau street and 43.4 feet on Ann street. The architects are Clinton & Russell, and the contracting builders, D. C. Weeks & Son. Mr. Zittel's down-town office will be located in the Morton Building. Temporarily he is at No. 5 Beekman street. Mr. Zittel's main office is at No. 266 Columbus avenue, near 72d street.

William Seeligsberg, whose offices are in the German-American Building, corner of Nassau and Liberty streets, makes a specialty of real estate loans and appraisals. He numbers among his clients many busy builders and active dealers because of his up-to-date business methods.

Broker Julius Scott who, some time ago was thrown from his carriage and broke his leg, has fully recovered, and is actively at work negotiating sales and exchanges of realty and mortgage loans. His new office, at No. 210 West 116th street, is easy of access, and his lists of improved and unimproved properties for sale are very complete. Mr. Scott's telephone call is 73 Harlem.

Henry Marks, broker, of No. 2216 8th avenue, near 119th street, has opened an office in the Borough of the Bronx, at No. 3252 3d avenue, near 163d street. Mr. Marks is an indefatigable and successful worker, and has already disposed of several parcels in the vicinity of his new office, which is handsomely furnished. 934 Harlem is the telephone call of his 8th avenue, and 220 Melrose the call of his 3d avenue office.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been on official designation made of them by the Department of Public Works.

4th—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's Office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

December 30, 31, January 3, 4, 5.

PROJECTED BUILDINGS.

The first name is that of the owner; ar't stands for architect; m'n for mason; c'r for carpenter, and b'r for builder.

When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's Office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency; (*) means not summoned; (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

Varnish Makers and Color Grinders,

Booklet for the asking. 45 Broadway, N. Y

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Vol. LXIII. JANUARY 14, 1899. 1,609

On the 28th of January we will issue the Index to Volume LXII. of the Record and Guide, covering the period between July 1st and December 31st, 1898. Price, $1. This Index in its enlarged form is now recognized as indispensable to every one engaged or interested in real estate and building operations. It covers all transactions—deeds, mortgages, leases, auction sales, building plans filed, etc. Orders for the Index should be sent at once to the office of publication, 14 and 16 Vesey Street.

THE speculative element in Wall Street has plenty of material to manipulate and, thereby keep up the activity. At one time it is the Vanderbilts, at another the Grangers they take in hand whenever there is no specialty to work on. Pennsylvania came in for a share of attention this week. It is surprising that this sterling issue should have so long escaped notice, probably the difficulty has previously been in accumulating enough stock on which to make a movement. The only dissatisfied people just now are the brokers who cannot get their customers to take profits and, as this ties up capital, who are asking for higher margins and in the cases of issues that are hard to dispose of except in times of extreme activity outright purchases. So far the banks have shown no disposition to check the upward movement and so long as they are willing to make loans on new bases of prices, so long will the speculator keep up the game more or less vigorously That the available capital resources of the community are very great was shown by the remark of the Governor of the Bank of England this week to the effect that instead of Europe financing the United States; the latter was now financing Europe. This had reference to our reserves of credits on the other side and was, probably intended to prepare the financial world there for the conditions that will arise when these credits are withdrawn to sustain an increased commercial and industrial movement here, a consideration that doubtless has also something to do with the maintenance of a 4% discount rate by the Bank of England for so long. On this side of the Atlantic there is no abatement of the cheerfulness that has characterized our people since the Cuban Question was dissolved in a war with Spain and they tasted in advance the pleasures of possession of new territories which should supply opportunities for increased industry and enterprise. Beyond the disposition of the broker to regard with jealousy the tying up of his capital in the accounts of customers who will not realize there is nothing to indicate that the buying movement is ended. A further advance would be just as much justified as was that made in many cases during the past thirty days or so.

IN the last phase of the Dreyfus case—the lapse of one of the members of the Court of Cassation into an agitator and a demagogues—and his subsequent discredit by the Chamber of Deputies, there may be found a sign that this extraordinary case will soon be finally and properly disposed of and that the Republic will safely pass through the trying and dangerous ordeal that the case created for it. There has been altogether too much cry of danger to the Government during this whole agitation and French people like others get tired of a cry too often repeated. At no time has there been a real scare; had there been it would have found expression in financial disturbance and consequent panic. As it is the Government savings bank has to some extent been discredited and the stocking depository taken into confidence again by the people, and there have been undoubtedly some large remittances to London; but there have been none of those great transfers by interests, which are by no means timid, which would have been the case had there been any real danger of political and social upheaval. The drivel to which the anti-Dreyfusites have resorted, through the mouth of M. de Beaurepaire, ought to kill their case. In taking review of the past year in Britain, it is found that during that period the downward course of prices of commodities, continued from 1895 to 1897, received a decided check. Though there has been no uniformity, and some extraordinary movements, the rise in wheat under Leiter manipulation for instance, on balance the upward tendency predominated in the year. The extreme activity in British shipbuilding, which accounts for some of the advances in prices, is shown by figures recently published of an output for the year of 1,610,000 tons, an increase of over 50% over the output for 1897 and by long odds the best figures ever recorded in any one year in that industry. Another European matter that is worthy of notice is that strenuous efforts are being made to seize the present opportunity when the incidents connected with the Prague Iron Industry Company showed the absurdity of too much protection for the iron producers, to get the Governments of Austria and Hungary to seriously consider the advisability of reducing the duties on iron, and stopping the combinations formed by the large firms, which enable them to fix their own prices without fear of competition. In industrial circles, and in the Reichsrath, there is quite a revolt against the monopoly in the iron trade, and a general cry that the duty must be reduced. Except Russia, no country in Europe has set up such high protective duties for iron as Austria. Money in Europe is still in good demand, the new year not having brought much relief, as is indicated by the continuation of the high discount rates by the national banks.

THE lists of assessed valuations of real estate in this city for 1899 were duly opened on Monday last and the results in the totals and in the sections affected by the increases were what we had already prepared our readers to expect. None the less they are naturally received with indignation by property-owners generally and with loud protests by those who have been individually made the victims of the process of "equalization" called for by the charter. The Tax Department pleads the mandate of the law to justify what they have done. There can be no question that the Charter does require valuations and taxation to be equalized throughout the new city it creates, but it is taking too much for granted to admit at once that to put more than three-fourths of the total increase upon Manhattan and the Bronx was simply carrying out the law. Nor, even if we were to admit that equalization of tax valuations required that those of Manhattan and the Bronx should be increased something over $327,000,000 should it be assumed that the law was equitably administered when so much of that total was put upon business and high-class residental properties in certain selected areas as has been done. It is not only a question whether equalization has been fairly applied in one borough as against another, but also whether it has been so applied throughout Manhattan itself. In the lists of valuations of individual properties given in another column the increases are so large, particularly on office buildings, as to materially change the problem on which the owners had been induced to build, or were running their buildings; the item of taxes is so suddenly and so disproportionately increased. The solution of the owner's problem thus unfavorably modified, it is natural to assume, must involve an increase in rents, so that the dissatisfaction, now confined to owners, will spread to the tenant class. The policy assumed by the Tax Department towards business property is likely also to affect development in this direction until it can be ascertained how far the extra expense for taxes can be recouped through a rising scale of rents. These considerations are in no wise affected by the knowledge that the increased assessments can be justified by the terms of the charter, or were made necessary by the pecuniary needs of the municipality; nor is it any comfort now to know that they are a consequence of consolidation. On the contrary, these facts only emphasize a further fact brought out most prominently by the assessment lists this week that the future burdens which consolidation will entail must be mainly borne by realty within the old boundaries of New York City and probably by that devoted to commercial and business uses. The only comfort to be found just now in this matter is that the increases in the valuations come at a time of commercial activity, when the demand for office and other business housing has improved and when the chances of making good in rents what is taken from income for increased taxes are better than they would have been had the changes been made earlier. But for this the consequences must have been much more serious than they are now likely to be, though in many cases they will be serious enough even though they do not involve fears of fatalities.

ANOTHER anxious question that the publication of the Tax Valuations raises is, what will the tax rate be? At the present time this question can only be approximately answered. The requirements of a net budget of $86,500,000 on a real estate valuation of $2,950,046,317 and a personal estate valuation of $547,339,879, the figure at which the personal estate of the five boroughs was valued at for 1898, or a total of $3,497,386,196, would

call for a tax rate of about 2.47 as against a rate for this year of 2.05. But at this time it is well to remember that last year all advance estimates of the tax rate were discredited by the uncertainty as to what the amount of the personal property assessments would be. Eventually they made an increase of some $127,500,000 in Manhattan and the Bronx alone, those being the only boroughs in which revaluations of property for tax purposes were made last year. At present the Tax Department declines to give out the personal estate valuations, for the good reason that how much will hold good on appeal cannot be estimated. The policy of the Tax Department in Manhattan and the Bronx regarding personal property was to test and experiment until it was ascertained what of such property could be definitely held for taxation. This process is understood to be completed as far as it is possible to do it in the two boroughs named, so that in them only nominal increases of personalty valuations can be anticipated. In Brooklyn and the other boroughs it may be different. The system that successfully raised the personalty assessments in Manhattan and the Bronx was applied in the three other boroughs this year. The proportion of personal assessments to real property assessments, naturally always higher, in Manhattan was last year brought up to about 30%; in 1897 in Brooklyn, they were between 5% and 6%, and in the two other boroughs still lower. While not claiming that the other communities are even proportionately as rich in personal wealth as Manhattan it still seems highly probable that there will be a substantial advance in tax valuations for that account in the three annexed boroughs when the final reports are made by the Department. Our rate, too, will be affected by changes in the realty valuations which may be brought about between this and when the books close, so that everything considered, it will most probably be found necessary to increase the tax rate notwithstanding the arbitrary way in which real estate valuations in Manhattan have been raised.

PROBABLY we shall have to "lick" those Filipinos yet, and in the process learn the old bitter lesson of how ungrateful alien peoples are. Why is it that when Uncle Sam is so high minded and disinterested, even a lot of Malays and half-casts don't recognize the purity and beauty of his intentions? The old gentleman lately has been throwing magnificent bunches of language around into both hemispheres about "liberty," "good government," "the blessings of peace and order," and how much he intends doing for everybody—by and by—and yet not a Son of Spanish Oppression seems to take any stock in what he says or advances heartily to thank his benefactor. Ingrates! In the past we have perpetually criticised other nations for the hot water they were always in with their colonies. We have never failed to extend our sympathies to the kickers. We did so with Cuba. The very Senators who to-day are ready to seize the independence of the Filipinos, only a few months ago declared that they could not set still and see a weak people (in Cuba) struggling for liberty without encouraging them by words if not aiding them with arms. Can it be that at last we are about to learn the lesson that it is easier to criticise the other fellow's conduct than properly direct our own? What would we say if Germany to-morrow were to pass verbatim any one of the dozens of sympathetic resolutions introduced into Congress during the last twenty years, merely substituting the words "Filipinos" and the "people of the United States" for the names of the oppressed and the oppressors that appeared in our declarations? Of course, "our case" is different! Yes! That is the retort of every man who finds his own accusations coming back on himself. The fact remains: our purpose with the Philippines is to seize and govern another people according to our own ideas. But it is for their own good, we say. Is not that precisely what the English Tory said regarding his paternal treatment of the American Colonies? The difficulty is: People ever prefer to seek their own good in their own way. They object to it being thrust upon them. They would rather fail on their own lines than succeed under the over-ruling authority of somebody else. When we went to war with Spain we declared solemnly that conquest was not our purpose. If in the meantime we have changed our minds, let us state the fact frankly, and not cant about it. A straightforward Pirate might command a little respect that we never could give to a mouthing, phrasing Hypocrite.

THE TAX ASSESSMENTS.

The tax books containing the assessed valuation of real and personal property in the several boroughs, were opened for examination and correction on Monday last. They will remain open until the first of May. During the intervening time any person or corporation claiming to be aggrieved by the assessed valuations may make application at the following offices of the Department of Taxes and Assessments, to have their grievances corrected. In the Borough of Manhattan, at No. 280 Broadway; in Bronx, at the Municipal Building, 177th street and 3d avenue; in Brooklyn, at the Municipal Building, Joralemon street, near Fulton; in Queens, at the Hackett Building, Jackson avenue and 5th street, Long Island City; in Richmond, at the Richmond Building, New Brighton. Corporations in all the boroughs must make applications at the Manhattan office only. Applications in relation to the assessed valuation of personal estate must be made by the person assessed at the office of the department in the borough where such person resides, and, in the case of a non-resident carrying on business in the city, at the office of the department of the borough where such place of business is located, between the hours of 10 a. m. and 2 p. m., except on Saturdays, when the office hours are from 10 a. m. to 12 m. The Tax Commissioners warn the public against "all individuals, associations, lawyers or others" who may claim to possess knowledge of inequalities in the assessments, and to have special influence with the department to secure reductions. The public is urged to address complaints directly to the commissioners.

The subjoined summary and comparative statement of the assessed valuations of real property in the several boroughs, was given out by President Feitner, comparison being made in Brooklyn, Queens and Richmond with the year 1897, for the reason that no assessment has been made since that year in those boroughs; assessments were made only in Manhattan and Bronx in 1898. The figures relating to the personal property assessments were withheld because of the radical reductions anticipated. For example, foreign corporations are down for $50,000,000, while the department considers itself fortunate if it shall be able to hold them for $500,000. The total tentative assessments on personalty probably reach $7,000,000,000, which may dwindle to $400,000,000.

COMPARATIVE STATEMENT OF ASSESSED VALUATIONS OF REAL PROPERTY FOR THE YEARS (1897), 1898 AND 1899.

Boroughs.	Real estate—Assessed valuations. (1897 & 1898).	1899	Increase.	
Manhattan ....(1898)	$1,734,982,400	$2,062,361,475	$307,379,075	17.5%
Bronx ....(1898)	101,585,523	123,987,590	22,401,997	22.2%
Brooklyn .....(1897)	570,107,743	614,807,025	44,699,282	7.8%
Queens .....(1897)	77,486,295	108,371,885	30,885,660	39.7%
Richmond .....(1897)	24,371,551	40,518,412	16,146,861	66.2%
Total	$2,528,533,441	$2,950,046,317	$421,512,876	16.6%

We have here an aggregate increase of $421,512,876, of which $329,781.72, or 78 per cent., falls upon Manhattan and Bronx. These figures, of course, represent gross increase, inasmuch as all the valuations for 1899 in the foregoing table are subject to revision by the Board of Taxes and Assessments, which has power to increase or diminish individual assessments with a view to correcting inequalities. In the old city of New York the action of the board commonly resulted in a reduction of about 5 per cent. from the aggregate gross increase. On this basis we shall have a net increase in 1899 of over $312,000,000 in the assessed valuation of real estate in Manhattan and Bronx. The average annual increase in the old city of New York during the past eleven years was some $54,890,000, the greatest increment being in 1896, upward of $85,480,000.

The unprecedented increase for the current year is thus accounted for by the Board of Taxes and Assessments: "Consolidation and the imperative duty of equalization imposed by the Charter is chargeable with this great increase in valuations in the boroughs of Manhattan and the Bronx, and the taxpayers of these boroughs can credit it (sic) with the placing on them of a mortgage of about three hundred million dollars a year, for all future time, with a tax rate ranging from two to two and a-quarter per cent., equalling from six to seven million dollars a year, all for the benefits which may be derived (but which are yet in the future) from such consolidation." In other words, in order to overcome the debt imposed upon the Greater City by consolidation, and to provide a safe margin for the issuance of bonds for public improvements, the assessed valuation of real estate in Manhattan and Bronx has been raised from 60 per cent. of the market value to 75 per cent., the average which obtained in Brooklyn, and which is now made general throughout the Greater City. The average in Queens and Richmond at the last levy was 50 per cent. The average tax rate in Brooklyn was 2.83 per cent.; in Richmond and Queens, 4.5; in old New York, 2.01. Put in percentages the gross increase on the valuations in each borough at the last levy before consolidation is: For Manhattan, 17.5 per cent.; Bronx, 22.2 per cent.; Brooklyn, 7.8 per cent.; Queens, 39.7 per cent., and Richmond, 66.2 per cent The percentage for Brooklyn represents a normal increase, with some accretion from a readjustment of valuations of suburban lands. It is understood, however, that the valuations of Brooklyn personalty have been radically increased, to conform to the scale which went into effect in Manhattan and Bronx in 1898

The question arises, how the enormous increase of over $307,000,000 in the valuation of Manhattan real estate has been dis-

tributed. As anticipated two months ago in these columns, it has been placed chiefly on commercial and the better class of residential properties, clubs, theatres, etc., in the longitudinal middle of the island. Broadway, from the Battery to 59th street, 5th avenue, from 14th to 86th street, and 6th avenue, have been radically treated. Following is a table, compiled from the tax books, which shows the valuations by tax sections. As the increases in some sections were very marked last year also, the valuations for 1897 have been included, so as to afford a comparison for three years.

The New Year's message of the Mayor to the Municipal Assembly is another statement of interest to property-owners in this city, especially those parts of it that relate to debt, taxation and improvements. The statement of the debt of the city is very clear and explicit, and the figures are summarized in the table below, which varies from the form of the Mayoral summary in that it shows more directly where the obligations and credits belong. It must be understood that, as the five boroughs form one city, neither debt or credits can be said to belong to any particular borough, but both to all alike; but our table shows in what proportions the debt was incurred in the several boroughs, and where the sinking funds, applied to its mitigation, originally belonged.

The message goes over the troubles encountered in ascertaining the debt of the consolidated city last year, which ended in establishing an excess of $13,566,875.69 over the debt limit. On the first Monday in July last, a new assessed valuation of real estate went into effect in the boroughs of Manhattan and the Bronx, which showed an increase over the preceding year of $69,281,132; 10% of which, or $6,928,113.20, was available in reduction of the excess previously mentioned. The bond issues for the year 1898 amounted to $30,164,906.91. The budget for 1899 amounts to $93,520,082.03, or $15,960,749.66 more than the total budgets for the five boroughs for 1898, but which proved to be $7,175,850.88 less than the total expenditures. The deficiency is, under the terms of the charter, covered by an appropriation in this year's budget.

Further, the Mayor says: "The budget for 1899 has further been abnormally swelled by obedience to the mandatory provisions of law relating to the fund for street and park openings which require the Board of Estimate and Apportionment to include in each year's budget a sum sufficient with the balance in the fund 'to pay all claims for the awards and costs in all proceedings in which reports shall have been prior to that time confirmed, and which awards shall not then have been paid.' The sum, included in the budget for 1899 for this fund, is $4,488,513.56, most of which was required to pay the awards in proceedings to widen Elm street, while the largest item ever included in any budget prior to 1899 for this purpose was $756,857.90 in the budget for 1897. The budget for 1899 is, therefore, an abnormal one to the extent of more than $10,000,000. From the gross budget for 1899 there will be deducted the revenues of the general fund for the year 1899, which are estimated to be about $7,000,000, and which would leave $86,520,082.03 as the amount to be raised by taxation in the year 1899. For the reasons stated above, the tax levy for the current year having been abnormally increased by causes incidental to consolidation, is at least ten millions of dollars in excess of what may be regarded as an average budget in any year subsequent to 1899."

DEBT AND SINKING FUNDS OF GREATER NEW YORK.

	Gross debt.	Sinking fund.	Net.

*Issued since Jan. 1, 1898. †There is a sinking fund in Long Island City which has not been included here.

In addition to the net total given above, there are bonds of various corporations now included in the City of New York amounting to $2,686,447.08, of which $268,040.90 have been approved as to legality, but not yet presented for registration, and $2,418,406.18 which have not been approved as to legality. Litigation is also proceeding to determine how much of the indebtedness of Queens County and the school debt of Hempstead should be apportioned upon the City of New York. The debt of the county, represented by bonds and certificates, Dec. 31, 1897, was $4,837,810. The dispute is whether $3,862,116.79 of this debt, or about $1,000,000 should be so apportioned.

OUR ALBANY LETTER.

Albany, Jan. 12.—The Legislature was equipped for its work this week by the appointment of its committees. The Committees on Cities, which will have charge of most of the legislation regarding New York, are of pretty good material in both branches of the Legislature, but of course may yield to political influences, and thus disappoint those who are hoping that they will act in the interest of the State.

Senator Stranahan, of Fulton, Oswego County, who heads the Committee on Cities of the Senate once more, is an able and an honest man, and he has good colleagues in the persons of Senator White, of Syracuse; Senator Ford, of New York; Senator George A. Davis, of Buffalo, Senator Marshall, of Brooklyn, and Senator Feeter, of Little Falls. These are all men of good character, and they form the majority of the Committee.

The Assembly Committee on Cities has as its chairman Robert Mazet, of New York, who had a good reputation when he was here in 1897. Mr. Lewis, another member, was Mayor of Rochester a few years ago, and when an Assemblyman here two years ago made a good record. Mr. Hill, of Erie County, is a man of several years' experience, with an excellent reputation. But as a whole the Assembly Committee on Cities is weak, and trouble may be expected from it. As a whole, too, the organization of the Assembly is not good; political influences have put inefficient men of doubtful character in high positions.

The Senators and Assemblymen from New York presented a large number of bills this week, and some of which should be of importance to real estate interests. Mr. Adler proposed in the Assembly a Building Code Commission different from the Municipal Assembly Commission. Mr. E. C. Brennan, of the Borough of Brooklyn, presented a bill for the construction of another bridge across the East River. Senator Ford presented a bill providing that the general school fund shall be an amount equal to not less than 4 mills on every dollar of assessed valuation of real and personal estate, which would produce at present about $12,000,000. The purpose of the measure is to secure a revenue for teachers' salaries and other education purposes that will increase automatically with the increase of wealth and population.

The bills introduced, withtheir introductory numbers, are summarized below:

Senator Ford, (Intro. No. 28), providing for the taking up of tracks of street railway companies, where there are more than two tracks on a street. (This bill is supposed to refer to the Amsterdam avenue case.) The bill says: "In all cases where one company owns, leases, or operates more than two tracks, that is, two pairs of rails, in the same street or highway in this State, the municipal or other officer or officers in charge of the street or highway shall, after thirty days' notice, take up all of said tracks, except two, and the aforesaid officer or officers shall make up a bill against the railway company for the cost of the same. The company or companies whose track or tracks shall be thus removed shall have the right to use the tracks which are retained in the streets."

Senator Ford, (Intro. No. 24), repealing sections 1824 to 1838 of the New York Consolidation Act and the acts amendatory thereof relating to mechanics' liens on account of public improvements in the City of New York, as constituted before the taking effect of the Greater New York Charter.

Senator Ford, (Intro. No. 22), his bill of 1898 making it unlawful to operate any street surface railroad upon Amsterdam avenue, between 72d and 125th streets, "by any other motive power than that now in use upon such portion of Amsterdam avenue by the company operating such road or tracks, unless the tracks or rails upon which said other motive power is or shall be used are so located that they shall be at all points at least 20 feet distant from the nearest curbline on the lines of said avenue."

Senator Ford, (Intro. No. 25), amending the Banking Law in relation to building and loan associations by modifying section 192 so that it reads as follows: "192. Repealed Acts, Chapter 122 of the Laws of 1851, Chapter 564 of the Laws of 1875, Chapter 96 of the Laws of 1878, and Chapter 556 of the Laws of 1887, and Article 6 of Chapter 689 of the Laws of 1892, are hereby

repealed, except as to associations now organized under either of said acts, but such associations shall be subject to the provisions of Sections 187, 188, 189, 190, and 194 of this act." Section 187 is the one referred to in this proposed modification of the law. It declares "that all accumulations on shares in said association shall be exempt from execution and proceedings supplementary thereto to the amount of $600, and the association itself shall be deemed an institution for savings and not taxable under any tax law which shall exempt savings banks or institutions for savings from taxation, and shall not be subject to the provisions of Chapter 143 of the Laws of 1886."

Senator Ford, (Intro. No. 33), amending section 907 of the Greater New York Charter by adding the following clauses: "Within three weeks after the delivery of the assessment rolls to the Municipal Assembly, the Board of Taxes and Assessments shall furnish to the Supervisor of the "City Record" a copy of the annual record of the assessed valuations of real estate in the several boroughs as delivered by them to the Municipal Assembly and shall add one column to the record, which shall be placed immediately before the column in which is set down the assessed value of real estate. In the column so added shall be set down the sum for which, in their judgment, said property under ordinary circumstances would sell, if wholly unimproved."

Then section 1527 of the Charter is amended by having the following added to it: "It shall be the duty of the supervisor of the "City Record" to cause the annual record of the assessed valuations of real estate made and delivered to him by the Board of Taxes and Assessments to be printed and published in the "City Record." The assessed valuations of real estate of each section or ward shall be printed separately as a supplement to the "City Record."

Senator Plunkitt, (Intro. No. 31), authorizing the Board of Estimate and Apportionment to appropriate any amount it pleases for the American Museum of Natural History.

Senator Marshall, (Intro. No. 40), making two-thirds of the cost of opening Prospect avenue, in the former town of Flatbush, a charge upon the City of New York.

Assemblyman Brennan, (Intro. No. 19), authorizing the Governor to appoint six citizens of New York, "not more than three of whom shall be of the same political faith on State and national affairs," as a commission to construct a suspension bridge over the East River, "for the use thereof by railroad companies, bicyclists and foot passengers." The bridge is to be from a location in Brooklyn "between Fulton Ferry and the Navy Yard to the Borough of Manhattan." These commissioners are to acquire land for the proposed bridge, and may condemn it, where they cannot make a bargain with its owner, "by the special proceedings provided for the condemnation of real property by chapter 23 of the Code of Civil Procedure." The cost of the bridge is to be borne by the City of New York, and the commissioners are to be paid at the rate of $3,000 a year each. The bridge may be leased for the use of railway companies. The bill also says that any street, surface or elevated railroad that has a railroad in operation in Brooklyn, and has made a contract for the use of the bridge, may purchase or acquire by condemnation any land or interest in land necessary for a proper approach by its cars to such bridge, or for a proper exit therefrom in the Borough of Manhattan as far as Park row or 3d avenue.

Assemblyman Adler (Intro. No. 17), providing that the Building Code Commission shall be made up as follows: "Said Commission shall consist of 19 members, to wit: The Commissioner of Buildings for the Boroughs of Manhattan and the Bronx, the Commissioner of Buildings for the Borough of Brooklyn, the Commissioner of Buildings for the Boroughs of Queens and Richmond, the Chief of the Fire Department, one representative of the Corporation Counsel, one representative of the Health Department, two members of the Tenement House Commission, appointed pursuant to the provisions of Chapter 479, Laws of 1894, one of whom shall be an architect and one an engineer, one representative of the Board of Fire Underwriters of the City of New York, one Civil Engineer, to be chosen from a list of three names to be submitted by the American Society of Civil Engineers, two architects from the Boroughs of Manhattan and the Bronx, and one architect from the Borough of Richmond, said three architects to be chosen from a list of nine names to be submitted by the New York Chapter of the American Institute of Architects, two architects from the Boroughs of Brooklyn and Queens, to be selected from a list of six names to be submitted by the Brooklyn Chapter of the American Institute of Architects, and four practical builders of at least 5 years' experience in the construction of modern fireproof buildings. This is a revival of the resolution first submitted to the Board of Aldermen by Alderman Homer Folks, and favorably reported in a minority committee report with some modifications, but finally rejected by the Board. Should Mayor Van Wyck approve the Commission, nominated by the Presidents of the Council and Board of Aldermen, and recently endorsed by the Council and the Board, it is reasonable to assume that he will veto this bill if it ever passes the Legislature and comes to him.

Assemblyman Finn, (Intro. No. 28), providing that at least one member of the State Board of Tax Commissioners shall be a resident of the City of New York.

Assemblyman Maher, (Intro. No. 41), providing for the appointment of a State Labor Laws Enforcement Inspector, with authority to appoint four assistants in New York County, and two in Kings County, one in Queens County, and one in Westchester County.

Assemblyman Harburger, (Intro. No. 34), appropriating $25,000 for the purchase of coal for the poor of New York.

Assemblyman Brennan, (Intro. No. 20), depriving the City of New York of all authority to construct bridges over the East River or the Hudson River, except bridges which are now under construction, like the new East River Bridge.

Assemblyman Maher, (Intro. No. 42), providing that "after the passage of this act all individual companies or corporations using underground passages or manholes in cities of the first class shall place in all manhole covers an automatic safety gas valve to prevent the accumulation or explosion of gas in all such manholes of subways.

Assemblyman Green, (Intro. No. 62), amending section 544 of the Penal Code so as to read: "Section 544. A purchase of property by means of false pretence is not criminal where the false pretence relates to the purchaser's means or ability to pay, unless the pretence is made in writing, and signed either by the party to be charged or by his agent, with his knowledge and acquiescence."

OFFICE RENTS.

The correspondence between Geo. R. Read and the Comptroller on a proposition to house a number of the City Departments in the Ivins Syndicate Building, was published a few days since in "The City Record." Mr. Read's offer was: For the Park row front, $2 per square foot, $1.75 for the court offices on that wing, $1.75 for the Ann street wing, and $1.75 for the Theatre alley wing, reckoning (approximately) 3,066, 1,874 and 2,648 square feet, respectively, for those wings, and where an entire floor is taken and the halls inclosed, a rate of $1.50 per square foot. He said: "There is an average of 8,765 square feet on each floor, inclusive of all hallways, by which I mean the hallways to the east and west of the stairways (the hall immediately opposite the elevators is not included), and by an entire floor is meant that number of feet. If at any future time from the letting (if same be made) the entire part of any floor should be taken, we will then make a round rate of $1.50 per square foot for such entire floor. The owner will remove and re-erect, at such points as shall be designated by you, partitions, the extent of which work, however, would be determined by the term of lease, as would also the question of assumption of leases now made by or for the Departments which would go into the building."

Eug. E. McLean, engineer to the Commission, when reporting on this offer, prepared the following table showing the space now occupied by the Departments it was proposed to move, the space proposed in the new building, rates now being paid and the rates proposed. In presenting it he also made an estimate of the cost of moving, and stated that the advantage of having the Departments named in one building hardly warranted the expense:

Department and location.	As now occupied. Office room, sq. ft.	Annual rental.	Rent, sq.ft.	As proposed in the Syndicate Building. Office room, sq. ft.	Annual rental.

Rent per square foot, as proposed					1.88

*Additional, 1,000 sq. ft. (refers to first note only), The office room on each floor is only 6,725 sq. ft., as per plan of building, and Mr. Read's estimate of 8,765 sq. ft. is 2,040 sq. ft. more than the actual office room space on each floor.

†This amount has $1,750 added for the additional 1,000 sq. ft.

THE BUILDING CODE AND HIGH BUILDINGS.

The Board of Aldermen, on Tuesday, approved the nominations of the Presidents of the Council and the Board to the Commission to draft a Building Code for the City of New York. An amendment to add George B. Post, Theodore Cooper and Hugh Bonner to the Commission was moved and lost, as was also an amendment to add George B. Post only. Subject to the approval of the Mayor, the Commission consists of William J. Fryer, Robert McCafferty, George A. Just and Cornelius O'Reilly, of the boroughs of Manhattan and The Bronx; Rudolph L. Daus and Bernard Gallagher, of the Borough of Brooklyn; and Daniel Callahan, of the Borough of Queens, as experts in the science and practice of building; Rollin M. Morgan, as a representative of the Corporation Counsel, ex-officio; and the Board of Buildings, consisting of Thomas J. Brady, Commissioner for the boroughs of Manhattan and The Bronx; John Guilfoyle, Commis-

sioner for the Borough of Brooklyn; and Daniel Campbell, Commissioner for the boroughs of Queens and Richmond.

The Council passed a resolution, given in a previous issue, referring the question of the restriction of building heights, to the consideration of the Committees on Building Department and on Public Buildings, Lighting and Supplies of the Council and Board of Aldermen, and to the Commission on Building Code.

MASTER PLUMBERS AT PLAY.

The twelfth annual entertainment of the Master Plumbers' Association was held Thursday evening last at the Central Opera House, 67th street, near 3d avenue. The first part of the evening was devoted to a musical and vaudeville entertainment, which ended in an exhibition of the cinematograph. The performance was exceedingly good, and was enjoyed by a large and enthusiastic audience. This was followed by a ball and promenade concert, which opened with a grand march led by Mr. J. W. Cooney and Mrs. J. A. Rossman. The music for this was composed for the occasion and dedicated to the Association. Dancing followed this and was continued until an early hour Friday morning. A large number of persons interested in the trade were present, and the affair is considered the most successful one in the history of the Association. Among those present were the following: Deputy Sewer Commissioner Donohue, Superintendent of Buildings Dooner, Gen. Geo. D. Scott, of the Building Department; Chief Inspector of Plumbing Andrews, John Renehan and J. E. Magovern, of the Examining Board of Plumbers; Water Register Stillwell, Supt. of Plumbing Dewar, of the Board of Education, and Inspectors Rodman and Nicholson, together with many officers from the other city departments.

There were representatives from all the leading firms of the city, and delegates attended from associations nearby, as well as from New Jersey, Connecticut, Pennsylvania and Maryland, among whom were S. L. Malcolm, President of the National Association of Plumbers; A. H. Brown, Secretary, and H. N. Noble, President, of the Greater New York Association; Fred. Schluchtner, President of the Brooklyn Association; J. W. Petry, President of the Long Island City Association; and several representatives from Richmond.

THE "OLD GUARD" DINNER.

The dinner of the "Old Guard," held at the Arena on the evening of January 6th, was a highly successful and enjoyable affair. It was attended by over forty members of the National Building Association, including many of the original founders, as well as members who have subsequently labored to advance the usefulness of the Association since its formation, twelve years ago. W. H. Sayward, of Boston, Secretary of the National Association, presided, and the speakers were the following: John L. Hamilton, of New York; H. M. Tostevin, of New York; John Stevens, of Philadelphia, ex-president of the Association; Ira G. Hersey, of Boston; Geo. Mann, of Baltimore, and W. S. P. Shields, of Philadelphia. The subjects of the speeches related to the future of the Association. Plans were discussed for increasing its usefulness, and a program was laid out for the convention which will be held at Milwaukee, on February 7th. The credit for the hospitable way in which the visiting members were entertained is due to the quintette, so well known as "the Goats," who, in their characteristic way arranged all the details of the dinner. Among those who attended were: Messrs. Charles H. Reeves, Geo. Watson, D. H. Watts, U. S. P. Shields, W. J. Collins, John Atkinson, and John S. Stevens, of Philadelphia; Wm. H. Sayward, Chas. B. Tucker, Geo. E. Brigham, John H. Northrup, Wm. Pray, H. W. Hayes, W. S. Gerry, L. D. Willcutt, James Wingate, J. Arthur Jacobs, W. J. Sullivan, Ira G. Hersey, B. F. Lamb, David McIntosh and J. B. Hunter, of Boston; Wm. Ferguson, of Baltimore, and W. D. Gates, of Chicago. Among those that were present from New Yorw were, Stephen M. Wright, Chas. A. Cowen, Ronald Taylor, Lovell A. Carr, H. M. Tostevin, President of the Building Trades' Club; Warren A. Conover, Augustus Meyers and William K. Fertig, Secretary of the Building Trades Club.

TRADE NOTES.

SECOND-HAND BUILDING MATERIALS.

Byron W. Greene, Jr., dealer in second-hand building materials, has a large and extensive assortment of materials at all times on hand at his yards, 18th to 19th streets and Avenue B. His office is at No. 309 Avenue B, with telephone call 1239—18th street, which he is prepared to receive and answer inquiries. Mr. Greene also makes a specialty of removing old buildings with dispatch. Builders and others will do well to consult him and look over his stock when in need of materials or wanting old buildings removed.

LARGER QUARTERS AND IMPROVED MACHINERY.

The Manhattan Cornice & Skylight Works, M. S. A. Wilson, proprietor, has removed to larger quarters at Nos. 15 and 17 East 3d street (formerly old Turn Hall). The new shop contains about 5,500 square feet and is equipped with new and improved machinery. This, with a large stock of materials always on hand and a skilled force of mechanics, enables all orders to be executed at the shortest notice and the lowest cost.

FLOOR CONVERSIONS—RESIDENCE INTO APARTMENTS.

Tre accompanying diagrams show the arrangement of the floors of two residences altered into apartments. A great deal of this sort of work is going on in the portions of the city where business is gradually creeping in and the problem of reconstructing residences, without actually tearing down and rebuilding, is one of importance. The main difficulty in these cases is in supplying light and air to the interior rooms, and the diagrams show two methods of accomplishing this; one involving two shafts and the other a single one.

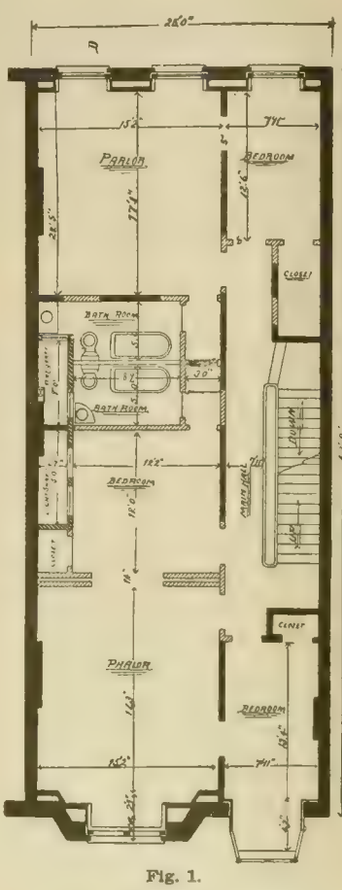

Fig. 1.

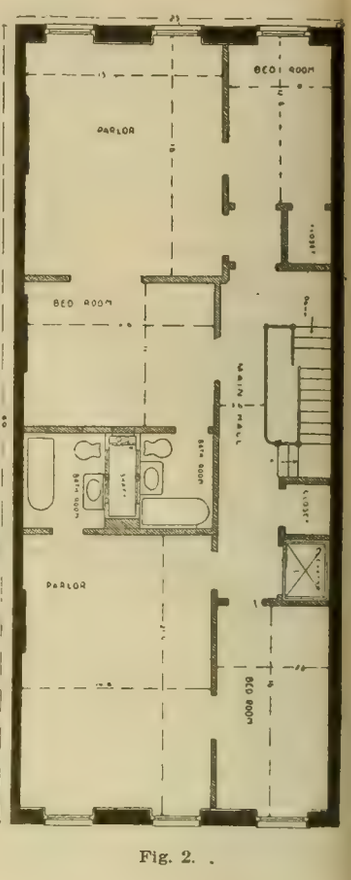

Fig. 2.

Figure 1 shows the arrangement of the 3d, 4th and 5th floors of the newly arranged bachelor apartment house at No. 11 West 34th street. The interior rooms are well lighted and ventilated by means of two fireproof airshafts. Figure 2 is a plan of an apartment floor at No 17 West 26th street, recently rebuilt from plans by Clinton and Russell, architects, which are handsomely decorated, consist of two, three or more rooms. The ventilation and light are excellent.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

About a year ago Louis Leonce Coudert joined the ranks of the realty brokers and opened offices in the Fidelity and Casualty Building, Nos. 97 to 103 Cedar street, near the Real Estate Salesroom. An experience of nearly three years in the real estate department of the well-known law firm of Coudert Bros., which comprised his father and uncles, together with the fact that he is a lawyer, qualified him for the realty business, and these, coupled with hard work, close personal application to business, and an extensive acquaintance, have secured success for him. His specialties are the sale of real estate and the placing of mortgage loans and insurance, and his facilities are excellent. Mr. Coudert's telephone call is 837 Cortlandt.

Ernest Tribelhorn, the well-known Harlem broker and agent, recently joined partnership with Geo. N. Hartman under the firm name of Ernest Tribelhorn & Co. Mr. Hartman is a shrewd and wide-awake business man, whose co-operation will, no doubt, largely increase the success of this firm, whose up-to-date business methods have brought them as clients many busy builders and active dealers, who frequent their well-furnished offices, at No. 1844 7th avenue, near 112th street. Tribelhorn & Co. make a specialty of managing property and negotiating loans in the section north of Central Park. Their telephone call is 429 Harlem.

The firm of Larkin & O'Donnell, real estate brokers, have removed their Madison avenue headquarters from its former address, to No. 709 Madison avenue, where they will, in conjunction with their other offices located at No. 6 Wall street and No. 1762 Amsterdam avenue, conduct a general real estate business. The recent development in upper Madison and 5th avenue realty ought to offer a broad field for young and enterprising brokers of their stamp.

THE NEW YORK LIFE INSURANCE CO

The 54th annual report of the New York Life Insurance Company, printed on another page, is a statement of unusual interest. It sets forth a business of vast magnitude and importance with unusual detail, and gives the intending insurer just what he should wish to know concerning a life company which seeks his patronage. Over 73,000 new insurers took policies in the Company during the year, their contracts covering over $152,000,000. The large companies find it necessary to do considerable new business to offset their losses by death, maturity and lapse; but the New York Life's gain in insurance in force was over sixty-seven million dollars. It was proposed a few years ago to limit by law a life company's risks to one thousand million dollars. There is little need of such a limitation, for the forces of disintegration are always at work, and no company's business has yet reached that limit; the New York Life's, however, now exceeds $944,000,000, and another year's gain equal to that of 1898 will carry it over the line. When Mr. McCall became President of the New York Life, in 1892, he announced that he believed in a frequent and full accounting to policy-holders, and each succeeding report shows how well he keeps his word. Probably the most important event of Mr. McCall's administration—since the issue of an unrestricted policy in 1892—is the announcement made last year that henceforth the Company will base its reserved funds on an assumed rate of three per cent. interest. This means increased security to policy-holders, and shows a determination to conduct the business economically. The Company has had its real estate valued during the year by insurance officials of the States wherein it is situated, and has made such reductions as reduce it to a four per cent. interest earning basis. The dollar-mark in the New York Life's reports means one hundred cents in value for every unit to the right of it.

REAL ESTATE TRUST COMPANY.

The statement of the condition of the Real Estate Trust Company of New York is given on another page, to which readers are referred for details. The figures evidence the success and stability of this popular institution, which, it may be remembered, at the opening of the year increased its half-yearly dividend from 3% to 4%. At the close of last year, when the statement is dated, the company had a surplus of $250,000, and undivided profits of $192,000, after paying during the year 7%, or $35,000, on its $500,000 of stock.

The Building Trades

MATERIAL MARKET.

BRICK.—There were no arrivals this week in North Rivers. Navigation is closed from all points except those on Long Island, from which no brick are being shipped at present. All loose brick that have been for sale have been closed out. It is impossible to ascertain just what prices were paid, but it is believed that $6.50 was obtained in many cases. The cold weather prevents anything more than a moderate use of brick at present, and nothing definite can be said in regard to prices or shipments until better weather allows the more extensive use of stock. Shipments in New Jerseys are light, owing to the presence of ice in the river. The demand is good, but manufacturers are not pushing sales. Prices are about $5.75.

LIME.—Arrivals, as well as shipments, in Rockland are very light, and there is only a small quantity in first hands. The demand is not active, and, consequently, manufacturers are not pushing sales. Prices are nominal, at 75c. and 85c. The number of vessels carrying lime were greatly reduced in the storms of last month, and it is estimated that this will affect the shipments during the coming season to the extent of 300,000 bbls. or more unless the vessels destroyed can be replaced. There are as extensive losses in other lines of trade, and, as the carrying of lime is necessarily dangerous, the lime trade will be the last to be considered. There is very little State lime being shipped to the market from the fact that only a limited amount of stock is going into consumption. Prices are steady, at 75c. for common and 90c. for Jointa.

LATH.—The arrivals this week were very small, being less than 1,000,000, and were sold at $2.00. There are few, about 4,000,000, on the way. The demand is very good, and manufacturers are asking $2.25 to arrive, and even more in some cases. There is an insufficiency of stock for present demands, and it is very probable that prices will sustain an advance in the near future.

CEMENT.—The demand for Rosendale is good for this season, being considerably better than for last year at this time. All deliveries are by rail, and prices are steady at 90c. and $1.00 for standard brands. The demand for domestic Portland is fair for this time of year, the cold weather preventing the use of cement in any large quantities. The best brands are selling at $2.00 and $2.15. The demand for imported Portland is light, as is customary at this season, and shipments are small. Values, however, have a tendency to advance, and prices for Alsen Portland have risen 10c. to 15c. during the week.

NAVAL STORES.—There was only a moderate inquiry for spirits of turpentine; holders, however, were firm, and stood for full values. No new features have been developed by the situation, and buyers are still cautious, taking only moderate lots for current needs. The southern market is firm, and this market is a little below the parity. Prices closed firm at 45c. for Southerns and 45½c. for machines. Tar was quiet and featureless, with ample offerings at lower prices than last week. Values are: $1.60 and $1.65 for regulars, and $3.25 for oil barrels. Pitch was steady, with trade quiet. Prices were unchanged at $1.60 and $1.65.

OIL.—Owing to the general conditions of the season trade in oil is only moderate, the demand being neither disappointing nor exceptionally good, as buyers are not taking stock for spring manufactures as yet. Inquiry for these purposes will probably begin to come in the early part of February, so that at present no part of the trade is very active. Seed has risen to $1.17½, and prices for raw oil are firm at 41c. for 5-bbl. lots, and 42c. for smaller quantities. Boiled oil is 43c. and 44c., and Calcutta is 54c.

LEAD.—Trade in lead is seasonably very good, and is better than at this time last year. Pig lead has advanced to $4.15, but manufacturers see no reason as yet for a stiffening of values on white lead, which remains firm at last quotations.

PAINTS.—There was a better inquiry this week in paints. Although there has been no material advance in mixed colors, prices are firm, owing to the gradual rise in oil and spirits of turpentine, as well as the increased cost of tin packages. All these factors, if continued, would naturally lead to an advance in the price of paints, but this is not liable to come for several weeks.

NAILS.—As a result of the amalgamation of the American Steel and Wire Co. and the Wire Nail Association, anticipated in our report of two weeks ago, prices have advanced considerably in wire nails, and there has also been a sympathetic rise in the price of cut nails. Prices are as follows: Wire nails, in carload lots, f. o. b. Pittsburg, $1.50, with a concession of 5c. on orders of 1,000 kegs; carload lots on dock, New York City, $1.65; small lots, New York stores, $1.70@1.75. Cut nails: Carload lots, f. o. b. Pittsburg, $1.15, with no concessions; on dock, New York City, $1.30; small lots, New York stores, $1.40.

GLASS.—Trade in glass is seasonably good. The assortment, as is usual at this time of year, is only fairly well filled. Prices remain firm and unchanged at 80 for plate, 80-10 for French window, and 80-20 for American window.

LUMBER AND HARDWOODS.—The general conditions of the market are unchanged from last week, the feature being the low values that yellow pine is bringing. Cargoes in this specialty can be obtained for $10.50 at Atlantic and Gulf ports, and at New York random cargoes are selling for $15 and $16. As yellow pine is a staple article of steady and extensive use, these values are remarkably low. Prices for North Carolina are somewhat higher relatively; the demand is steady and of a fairly good volume. Trade in spruce is steady and quiet. White pine is in good demand, but it is too early to confidently predict the volume of this wood that will be brought to mills. The sawing will begin in February, and a great deal depends on snow for the transporting of logs to the mills. Hemlock is being offered as low as $6.00 at some mills. Hardwoods are scarce, and are in good demand, with prices unchanged from last reports.

OF INTEREST TO THE BUILDING TRADES.

A meeting of the Society of Architectural Iron Manufacturers will be held on Monday, Jan. 16, at 8 p. m.

The Tile, Grate and Mantle Association will meet on Thursday, Jan. 19 at 8 p. m. in the rooms of the Building Trades' Club.

There will be a meeting of the Mechanics' and Traders' Exchange on Tuesday, Jan. 17, at 1.30 p. m., in the Building Trades' Club.

Jeremiah O'Rourke & Sons, of No. 756 Broad street, Newark, N. J., have opened a branch office at No. 1133 Broadway, Room 20, New York City.

John F. Hughes and Wm. J. Dolan have been appointed inspectors of plumbing (in Manhattan and the Bronx) in the Department of Buildings.

E. P. Hicks, varnishes, 100 William street, and H. B. Kirkland, electrical supplies, 22 Thames street, have qualified as members of the Building Trades' Club.

It is reported that there is a project on foot to consolidate the interests of the manufacturers of gas and electric light fixtures, embracing the leading concerns of New York, Philadelphia, Chicago, Cleveland and San Francisco, about 18 in all, and representing nearly 90% of the total yearly manufacture.

The Board of Trade and Transportation will go to Albany again with their bill, unsuccessful in the Legislature of 1897, to restrict buildings to a height of 200 feet, measurements to be from curb level to highest point of the cornice or roof beams, and imposing other requirements which, in view of the present position of the height-limit question, it is not necessary to repeat.

Bunn, Carey & Nase, architects, dissolved partnership on December 31st last. Charles H. Bunn and Mathias H. Nase have formed a new partnership, under the title of Bunn & Nase, and will liquidate the old firm, whose former offices, at No. 1123 Broadway, they occupy. Charles P. Carey, with his brother, Michael J., has opened offices at the same address under the firm name of Charles P. Carey & Bro.

Hallahan & Ahearn, builders, are finishing a seven-story and basement apartment house on Central Park West, south corner of 109th street. It covers a plot of four lots, and the fronts are of limestone and red brick. There are five suites, comprising six, seven and eight rooms and bath on each floor, and the rents range from $1,000 to $1,600 per suite. The builders have carefully watched the work from the beginning, and have provided the best features for a first-lass house, including an electric elevator, electric lighting, etc. Hallahan & Ahearn have not yet christened the house, which will be ready for tenants March 1.

Committees for the Association of Master Plumbers have been made up as follows: Auditing, T. J. McCormack, J. D. McEntee, A. H. Brown. Protection, B. F. Donohue, John Renehan, Chas. Tucker S. L. Malcolm, H. J. Pattison. Conference, H. G. Gabay, J. W. O'Brien, Alex. Bryant, T. F. Gaynor, Wm. Montgomery. Legislative, T. F. McCaul, T. J. Tuomey, H. G. Gabay, G. B. Brown, B. F. Donohue, T. F. Gaynor. Department, T. J. Cummins, M. J. McDermott, John Mitchell, T. F. McCaul, J. M. O'Brien, G. B. Brown, John Renehan. Law, James Gillroy, M. Sexton, M. Schnaier, W. J. McDermott, I. O. Shumway. Trade School, Edward Murphy, Frank Reynolds, G. D. Scott, T. J. Tuomey, James Muir.

The business of the private sales' market this week comprised few items of popular interest, though the transactions, as a whole, produce a favorable impression for the second week in January. The week has naturally been one of inception rather than the closing of deals, and has, furthermore, been disturbed by the announcement of a tremendous raise in the assessed valuations of real estate. The extraordinary values developed at the King and Bathgate estate auctions, on Tuesday, have also, it is said, caused many owners to unduly increase their demands. As regards the assessed valuations, the impression prevails that owners will find means in the end to shift the increased tax on the tenant. It is to be noted that the increment has been placed chiefly on the big office buildings, and on speculative holdings in Broadway, 5th and 6th avenues—properties which, it is claimed, have hitherto been very much underrated on the tax books. One effect of the increased assessments will, no doubt, be to cause a deal of improvement of old property. The chief transactions of the week were the sales of the Albany and Wellesley apartment houses, each for over a half-million of dollars. The Albany, which is said to be the third oldest apartment house in New York, was to have been sold at auction by Geo. R. Read on Thursday. Another property, Nos. 221 to 225 West 17th street, and Nos. 216 and 218 West 18th street, which was to have been sold at foreclosure, was disposed of at private treaty. Among other noteworthy sales were those of No. 845 5th avenue, to Grant B. Schley, of Moore & Schley, who recently purchased the adjoining house, on the south corner of 66th street, and who purposes to convert the two into one; the southeast corner of University place and 12th street, which will be improved with a 10-story mercantile building; and No. 155 West 36th street, which will, it is said, probably become the site of a bachelor apartment. The records show the transfer by Edward P. Floyd-Jones to John Jacob Astor, of No. 42 Union square, 105 feet north of 16th street, 26x125, for a nominal consideration. Mr. Astor last week purchased No. 44, adjoining this on the north, for the purpose of extending the Westmoreland Hotel at the 17th street corner. The last acquirement by Mr. Astor gives the Westmoreland a frontage of 104 feet on Union square and a depth of 125 feet. The conveyance of the plot sold by Richard V. Harnett & Co. for the Tracey estate, on 5th avenue, 50 feet north of 87th street, 50x140, with right of the 10-foot alley in the rear, has also been recorded. The price given is $100,000. The plot it 50 feet south of the 50-foot plot at the corner of 88th street and 5th avenue, sold at auction Tuesday by William Kennelly for the King estate at $121,000. The number of transactions reported below is 47, with considerations given in 8, and amounting to $1,520,300. Corresponding figures for last week were 18, 10 and $690,500, respectively.

That a turning point has been reached in the auction market is the conclusion universally drawn from the result of the King and Bathgate estates' sales on Tuesday last. What that result would be was largely a matter of conjecture. Good judges of the market doubted the possibility of disposing of upward of a million dollars' worth of property in one day without serious sacrifice of values. For a month past business, except of the most trivial and perfunctory nature, had been abandoned in the Real Estate Salesroom. Speculation on the Stock Exchange was extremely active. And a startling increase in the assessed valuations of real property in the boroughs in which the offerings lay had just been announced. But, in spite of what appeared to be a fatal concurrence of circumstances, the auctions proved unqualified successes. The most hopeful expectations of the parties in interest were exceeded, and old habitues of the salesroom were treated to a scene which recalled the historic times before 1890. Between $625,000 and $650,000 the representatives of the King estate expected to realize; the actual proceeds were $717,725. But, great as was the tonic effect of Tuesday's sales on the auction business, their importance to the building industry was probably even greater. The 51 lots and four old tenement properties of the King estate, and the 144 lots of the Bathgate estate were, with few exceptions, bought by speculative builders and building loan operators for immediate improvement.

The successful issue of Tuesday's auctions was, no doubt, in large measure due to the fact that both were without reserve, the one being a Supreme Court partition, and the other an executor and trustee's sale. The first offering by William Kennelly, acting for the King estate, consisted of four tenements in

East 12th street. They were bought by Gerson Hyman for a total of $67,600. Not long since they could have been purchased at private treaty for $60,000. Mr. Kennelly's second offering comprised the scuth corner of 5th avenue and 88th street, 25.6x102.3, and the adjoining avenue lot, 25.2x102.3. The bidding for the corner started at $50,000. John N. Golding, representing a client, dropped out at $68,500, and Flake & Dowling at $69,500. The parcel was secured on the thirtieth bid by Charles Parsons, president of the Rome, Watertown & Ogdensburg Railroad, who also obtained the inside lot, after equally keen competition, in which William Hall took a leading part. The bidding started at $30,000 and closed at $48,000. The corner lot was bought by the testator, William H. King, in 1859, for $2,300. The sum which it brought last Tuesday was larger than the asking price of the combined plot six weeks ago, and marked an advance on the values established by the Carnegie purchase, two blocks above—about $50,000 for corners and some $30,000 for inside lots. It is reported that Mr. Parsons will present his purchases to his two sons for residential use. Another parcel which elicited a fancy figure was the gore, 16.6x48.4x45.5, in 8th avenue, near 112th street. It went to Timothy Donovan, the owner of adjoining property, on the forty-second bid, at $4,100. His chief competitors were Heilner & Wolf, purchasers of the lot adjoining the other side. The heaviest buyer was the builder, Daniel D. Lawson, who secured 21 lots in Park, Manhattan and 8th avenues, representing an investment of $205,100. The buyers not mentioned in the foregoing were Louis Lese, S. Jacobs, Robert Ferguson, Heilner & Wolf, B. Wesselman, Wm. Cumming, Alexander McDowell, A. M. Geraty, Fred. A. Snow, Edward Hirsch, Martin Metzger, Edward Oppenheimer and John McCarty.

The sum total realized from the Bathgate estate sale, conducted by Peter F. Meyer, was $515,275, exclusive of buildings, which brought $157. The average price per lot was 33% higher than the average at the sale held by the same auctioneer for the Bathgate estate in December, 1897, when 159 lots were disposed of. The first parcel offered, the southwest corner of 3d avenue and 136th street, 25x100, was bought by Thomas Lenane for $16,700, after a competition which augured well for the sale. The southwest corner of 3d and Wendover avenues, 25.2x100x27.1x100, was purchased by Marie Eichler for $20,000. Last year the southeast corner, 34.3x100x32.4x100, brought $8,000. Five inside lots on the westerly side of 3d avenue, adjoining the corner, were bought by William C. Oesting for $6,500 each; last year corresponding lots on the easterly side sold for $3,650 and $3,400. Four deep lots in the middle of the westerly block front, between Wendover avenue and 171st street, sold to Carl Randrup, brought $7,700, $8,000 and $8,050 each; last year the corresponding lots on the easterly side went for $4,200 each. The northwest corner of 3d avenue and 171st street, was purchased by Mr. Oesting for $12,700, as against $5,200—the price obtained for the opposite corner, a twelvemonth ago. Some part of the general advance in values noted at the present sale is, no doubt, ascribable to the somewhat superior quality of the offerings as a whole. But it is chiefly to be explained by the building movement which has been in progress in the Bathgate district and its immediate neighborhood during the past year, some account of which will be found in the Record and Guide for September 3 and 10, 1898. This movement evidently received a fresh impetus at last Tuesday's sale, inasmuch as most of the buyers were speculative builders or building loan operators. Those not mentioned in the foregoing were: Enoch C. Bell, James L. Wells, Peter Coughlin, E. J. Deegan, Sonn Bros., M. Bowers, Charles Wahlig, Anna Winterroth, John Gram, Wm. Rubsam, John Moonan, Wm. Rosenzweig, Richard H. Henry, W. F. Smith, Marx-Ernst-Nathan Co., Henry Baum, J. S. Haft, Geo. W. Martin, Louis Wirth, Ed. L. Meyer and Ed. D. Farrell.

The unexpectedly high prices obtained at Tuesday's great sales illustrate the tendency frequently observed in the real estate market after a period of depression for the disinterested public to be the first to recognize the true value of property. For years past owners and appraisers have been marking down values so as to overcome the unreadiness of the public to buy. And now that capital again seeks the realty market by virtue of the reaction of economic law the professional appraiser is surprised to learn that, during the years when he has been marking down real estate, real estate has quietly been absorbing value from public and private improvements, a fall in the interest rate, and a thousand and one other indirect and more or less obscure agencies.

In discussing the gratifying success of the King and Bathgate estate auctions certain negative features should not be overlooked. The properties belonged almost wholly to the speculative class, and the sales developed practically no investment buying. The lots of the King estate lie mostly within the sphere affected by the great building movement immediately north of Central Park; those of the Bathgate estate fall within the influence of the equally well-defined building movement in upper 3d avenue and adjacent streets. The success of these sales, therefore, does not signify anything definite as regards investment property; nor can it be interpreted to mean an indiscriminate demand for vacant lots. In a partition sale of five lots in Pelham road, adjoining the Benson estate, by John S. Mapes, on Thursday, the plot brought considerably less than its appraised value; six private houses in 118th street, near Avenue A, offered at assignee's sale by Peter F. Meyer, on Monday, were withdrawn in the absence of a bid; the flat and private dwelling at Lexington avenue and 111th street as well as the apartment house at No. 504 Manhattan avenue, offered by Bryan L. Kennelly on Wednesday were bid in; John Pettit's property, Nos. 247 and 249 Pearl street, two five-story stone front buildings, sold under foreclosure by Adrian H. Muller & Son on Thursday, brought $22,491.67 less than the judgment, and smaller deficiencies resulted in a number of other foreclosures the same day. On the other hand, the dwelling, No. 19 West 90th street, offered by Bryan L. Kennelly at owner's sale, on Wednesday, was bought by Louis Friedman at a good round figure; the tenement, No. 1467 1st avenue, offered in partition by William M. Ryan, on Tuesday, elicited thirty-four bids, bringing $26,866; and other properties of the right class found ready takers. Mr. Friedman, who is a dealer in cotton goods at No. 8 West 3d street, bought the 90th street house as a New Year's present for his daughter.

The following additional withdrawals and adjournments to dates beyond the coming week are to be noted: No. 142 West 73d street, and No. 111 West 53d street, Peter F. Meyer, withdrawn; No. 3 Park row, Philip A. Smyth, withdrawn; Nos. 216 and 218 West 18th street, and Nos. 221 to 225 East 17th street, Strong & Ireland, withdrawn; No. 87 South street, D. Phoenix Ingraham, adjourned to Jan. 27; No. 38 West 72d street, Peter F. Meyer, adjourned to Jan. 25.

Richard V. Harnett & Co. have for Thursday next, 19th inst., two important auction sales, notices of which will be found in the business pages of this issue. The first is made up of quite a number of valuable leases, having from nine to eleven years to run, with options for renewals and other purposes in cases. It is difficult to recall a previous occasion when such a bunch of leases came on the market at one time, and the sale will be watched with much interest. The properties leased are located in good renting sections of East 9th, 10th, 11th and 12th streets and 2d avenue, and the details of these offerings are commended to the attention of buyers. Another property to be offered on the same day is the 4-story dwelling, No. 30 East 81st street. The auctioneers' address is Nos. 71 and 73 Liberty street, where they will furnish maps and full information on request.

Attention is called to the advertisement of James R. Hay, which will be found on another page of this issue. Mr. Hay offers for sale a large number of Boulevard, Amsterdam avenue and street lots which ought to receive the attention of builders and others looking for suitable building sites. Mr. Hay's address is No. 71 Broadway.

Thos. A. Kerrigan will offer, in foreclosure, on Thursday next, 19th inst., at No. 9 Willoughby street, the important block of apartment houses, Nos. 916-922 8th avenue, corner of 10th street, Brooklyn. Particulars will be found on another page.

To real estate men and property-owners of this borough the important event of the week was the opening of the tax assessors' books on Monday last. In view of the fact that it was the first assessment of Brooklyn property under the new charter, there was more than the usual interest in seeing just how the borough had fared at the hands of the assessors. There had been so much discussion of this matter prior to and succeeding consolidation to the effect that Brooklyn would not receive fair treatment that property-owners were prepared for heavier burdens than they had heretofore borne. The figures taken from the record of the Tax Department show, however, that no such result need be feared. These figures show the assessed valuation on real estate for each ward for the years 1897 and 1899, respectively:

Wards.	1897, actual.	1899, preliminary.	Wards.	1897, actual.	1899, preliminary.
1st	$32,199,775	$34,364,490	18th	$8,251,531	$8,215,150
2d	6,198,068	8,051,750	19th	20,739,052	20,843,650
3d	17,843,168	17,600,010	20th	21,021,257	21,829,280
4th	12,371,751	12,313,450	21st	22,551,219	22,481,025
5th	5,739,716	6,202,600	22d	36,926,841	38,031,995
6th	18,882,935	20,206,730	23d	45,957,647	46,237,279
7th	2 ,411,651	26,206,650	24th	16,328,352	17,350,895
8th	20,421,041	21,458,018	25th	22,174,337	22,479,320
9th	24,538,803	25,133,650	26th	22,016,309	21,934,038
10th	13,492,518	13,471,570	27th	12,619,464	12,655,530
11th	14,997,241	14,315,800	28th	24,510,701	25,118,745
12th	13,516,831	13,256,620	29th	14,301,184	15,707,532
13th	17,542,200	17,164,700	30th	14,718,944	18,207,631
14th	10,983,709	11,016,455	31st	7,436,816	8,182,960
15th	7,961,534	7,936,680	32d	3,753,905	7,906,962
16th	12,587,127	12 722 110			
17th	20,211,116	20,814,765	Total	$570,107,742	$591,448,050

This shows an increase of $21,340,308 since 1897. The figures for each ward in the assessment of this year, however, do not represent the entire real estate assessment for that ward, as the figures in the '97 column do. This year, instead of assessing each ward with its proportion of the valuation for certain railroad structures, etc., this item has been assessed against the entire borough as a whole. In 1897 this item amounted to $12,458,315.20, and is included in the above total in the '97 column. For this year the assessment for this item was $23,563,975, which must be added to the above '99 total in order to get the total real estate tax in the borough of Brooklyn for the year '99. With this $23,563,975 added, the total amounts to $615,012,025, as against $570,107,742 for '97, representing an increase of $44,904,283.

In basing calculations on the above figures it must be borne in mind that the figures for '97 represent the assessments as finally made up after all claims for reduction had been passed on. The figures for this year's assessments are, of course, as originally made up before any such claims have been made.

At the Tax Department it was impossible to find out the figures for '97 as originally made up, because wherever the claims had been allowed the new figures were substituted for the old. According to the official report of the Department, however, it may be seen that there were 1,338 applications filed for reductions, of which 697, or 52 per cent., were allowed. It is safe, therefore, to assume that a certain percentage of this year's as-

sessment will be reduced which may make the total increase considerably less than $44,904,283.

A point which Brooklyn taxpayers should note in connection with these figures is that their tax rate will probably be very much less than it ever has been. Although the official rate cannot be determined for some months, it has been stated that the rate for this borough will not be more than 2.50. As this is a drop of 40 to 50 cents on each 100 dollars, it means that all property-owners whose assessments have not been materially increased will pay less in taxes because of consolidation. A study of the above figures will show that this will apply to most of those who live in the older sections of the borough, while the increased valuations are made chiefly in the newer wards, made up of Flatbush, Flatlands and New Utrecht, where the bulk of the new buildings have been erected. Whether Brooklyn is getting all that was pledged by the new charter in the way of equalization of taxes is open to question. That consolidation has lessened the burden of taxation few will deny, and to the average property-owner this fact is a source of satisfaction sufficient for the present.

The announcement was made early this week that Jas. L. Brumley is to join forces with the interests of the late Jacob Cole in the formation of a corporation to be called the "Jacob Cole Real Estate Co., Jas. L. Brumley, Auctioneer." This corporation will do a general auctioneer's business, and was given its name to perpetuate the memory of Mr. Cole among Brooklyn real estate men with whom he had been so long associated. The company has not as yet been formally incorporated, though it is stated that beside Mr. Brumley, J. S. De Selding, of the firm of De Selding Bros., Singer Building, Manhattan, the son-in-law of Mr. Cole, and Mrs. Cole, the widow, will hold the controlling interests. The new company will occupy Mr. Cole's old offices, on the ground floor of the Real Estate Exchange. James L. Brumley was for ten years the Brooklyn manager of the office of Jere. Jonhson, Jr., Co. For the past few years he has been in business for himself with an office in the Real Estate Exchange. He will probably be the president of the new company, and its general manager.

The recent purchase of the property known as Zipp's Casino by A. I. Namm, the Fulton street dry-goods merchant, indicates a healthy demand for land near this shopping district. This property is situated on the west side of Elm place, 72 feet 7 inches south of Fulton street, with a frontage of 50 feet on Elm place and a depth of about 150 feet on each side. In the rear it adjoins the easterly wall of Namm's present store. It is the latter's intention to tear down the Casino and erect a substantial five-story structure, with basement. This will give him an entrance on Elm place, besides the ones on Hoyt and Fulton streets, which he now has. The plans are in the hands of the architect, and will be perfected in time to begin building next month. It is expected that this structure will be ready for use in time for the fall trade. The price paid for the Casino is not stated, but $100,000 is said to be the figure.

In residential property the most important sale of the week was the one made by Frank A. Barnaby & Co., Montague street, of No. 39 Pierrepont street. This house is situated on the north side of the street, a few doors west of Hicks street, and is a fine dwelling of red brick, three stories high, and is 25x100. The purchaser was George G. Dutcher, of Union street, who paid $30,000 for the property. This is considered a good figure for even the best houses in this section of the borough, where the demand is largely limited to those who have always lived in the neighborhood.

Through C. N. Moody & Co., of 189 Montague street, John H. Hanley has arranged to sell to Spence Brothers, of Bay Ridge, the vacant plot fronting 250 feet on the south side of 82d street, between 3d and 4th avenues, running 100 feet in depth. In return, Spence Brothers will deed to Hanley a vacant lot of the same dimensions on the south side of 85th street, between the same avenues.

J. N. Kalley & Son, of the Real Estate Exchange Building, report the following sales: For James McDermott, No. 722 Marcy avenue, west side, 125 feet north of Greene avenue, four-story brownstone dwelling-house, 20x100. The purchaser's name was not given, but the consideration was placed at $8,000; also, for Mrs. Carlisle to Mrs. Liebmann, No. 96 Greene avenue, south side, 21 feet east of Vanderbilt avenue, three-story brownstone dwelling, 21x85. In return Mrs. Liebmann will deed to Mrs. Carlisle No. 332 Clinton avenue, west side, 88 feet north of Lafayette avenue, 4-story brownstone dwelling, 21x110. The considerations were not given out.

Redmond Brothers, of No. 613 Vanderbilt avenue, have sold for W. W. Sammes, of Huntington, L. I., the three-story brick house, No. 1511 Dean street, n s, bet Albany and Troy avenues, 20x80. The buyer was John R. Ryan, who paid $2,500 for the property.

John Blohm has sold to E. C. M. Fitzgerald, of the firm of McNulty & Fitzgerald, Montague street, his hotel on Bay 44th street, for $10,000. This property fronts 84 feet on Bay 44th street, and has a depth of 250 feet, running to Sheepshead Bay in the rear.

We will either bind your copies in half-sheep for $1.75 a volume, or in half-morocco for $2.00 a volume, or supply you with handy binders, which you can use yourself, for $1.00, postage nineteen cents. "Record and Guide" office, 14 and 16 Vesey street.

REAL ESTATE NOTES.

The 4-story dwelling No. 29 West 72d street, 25x102.2, is reported to have been sold to a Glens Falls capitalist for $200,000. Frank L. Camp is the present owner of record.

Charles Reily states that he has not sold the plot 100x100, on the north side of 119th street, 100 feet west of Madison avenue, the sale of which was reported in our issue of December 31.

A second mortgage made by a loaning institution at 4½% on lower East Side property, and recorded this week, is another indication of the easing tendency of rates on realty loans.

Theodore Sutro, attorney, No. 280 Broadway, and at one time a Tax Commissioner, makes a specialty of tax and kindred cases, as will be seen from his card published in our business pages.

The Borough Board of Manhattan has decided to recommend that 6th avenue be paved with asphalt. This was done in response to numerous requests from property-owners and business men on the thoroughfare named.

Joseph J. Snow, who recently leased the northeast corner of Park avenue and 125th street, a plot 99.11x90, for a term of twenty-one years, at rentals rising from $22,500 to $32,500 and taxes, will improve the property by the erection of a 12-story building.

Vigorous measures to secure an approach to the new 3d avenue bridge over the Harlem River, from the Southern Boulevard on 133d street, have been begun by a number of Bronx Borough citizens, who have organized an association with this object in view. The conditions for providing the approach, which will be a great benefit to the manufacturing interests south of 136th street, are peculiarly favorable from an engineering point of view.

John F. Patterson, executor under the will of Marshall O. Roberts, has applied to the Supreme Court for permission to sell the property, Nos. 105 and 107 5th avenue, at the northeast corner of 18th street. The size of the plot is 66x125. Henry Corn is to be the purchaser; he agrees to pay $500,000 for the property, and within twelve months build a 12-story store and loft building thereon. The estate will make a building loan of $300,000.

Maximilian Morgenthau, who purchased fifty lots at the Bathgate sale, has resold the following: 4 on west side of Washington avenue, south of 171st street, to Boehm & Boehm; 11 on the northeast corner of Brook avenue and St. Paul's place, to the Ernst-Marx-Nathan Co., and 7 adjoining the last to E. S. Levi; 2 on the west side of Brook avenue, south of 171st street, and 8 on the east side of Brook avenue, north of 171st street, to the Ernst-Marx-Nathan Co.; 3 on the west side of Brook avenue, north of 171st street, to Emil S. Levi and Boehm & Boehm.

The fire-insurance companies which issued policies on the Home Life Building will have to pay out $199,325 as a consequence of the fire of December 4 which damaged the upper stories of the structure. The underwriters hope to realize about $6,000 from selling some of the damaged marble. The companies received just $70 a year for assuming risks aggregating $350,000 on the building. The actual premium rate was 10 cents (per $100 of insurance) for five years, or 2 cents for one year. Fireproof office structures throughout the mercantile section were insured at that rate after the dissolution of the tariff association which governed rates in this territory until April last. Rates have advanced considerably since the Home Life loss.

The Board of Education this week decided to request the proper authorities to secure as soon as possible sites for additions to the present schools at the following places: In East 20th street, addition to Public School No. 50; to No. 120, at 189 Broome street; to No. 177, at Market and Monroe streets; to No. 171, at 103d and 104th streets, near 5th avenue; to No. 172, at 108th street, between 1st and 2d avenues; to No. 174, between Rivington and Stanton streets; to No. 146, at 156th street, near St. Nicholas avenue; to No. 109, at 99th and 100th streets, between 2d and 3d avenues; to No. 175, at Jerome avenue and 184th street; to No. 119, at 133d and 134th streets, between 7th and 8th avenues; to No. 67, at 123 West 154th street; to No. 170, at 111th and 112th streets, between 5th and Lenox avenues.

Bind your copies of the "Record and Guide." They are invaluable for search and reference. We will either bind your copies in half-sheep for $1.75 a volume, or in half-morocco for $2.00 a volume, or supply you with handy binders, which you can use yourself, for $1.00, postage nineteen cents. "Record and Guide" office, 14 and 16 Vesey street.

IS THE RATE EXTORTIONATE?

To the Editor of THE RECORD AND GUIDE:

The penalty interest on unpaid assessments remains seven per cent.; in the meantime the city borrows money at 3 to 3½ per cent., and all kinds of interest are lower. As the 7 per cent. penalty rate was made when the city borrowed money at 6 and 7 per cent., is it not reasonable to ask for a reduction to 5 per cent., which will leave a profit to the city of at least 1½ points? I pay my assessments promptly, but occasionally contest a few. While willing to pay a fair rate as a penalty, the antique rate ought to be abolished, I think, in all fairness. TAXPAYER.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been on official designation made of them by the Department of Public Works.

4th—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's Office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

BOROUGH OF BROOKLYN.

CONVEYANCES.

Whenever the letters Q. C. and C. a. G. occur preceded by the name of the grantee they mean as follows:
1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.
2d—C. a. G. means a deed containing Covenant against grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's Office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Vol. LXIII. JANUARY 21, 1899. 1,610

On the 28th of January we will issue the Index to Volume LXII of the Record and Guide, covering the period between July 1st and December 31st, 1898. Price, $1. This Index in its enlarged form is now recognized as indispensable to every one engaged or interested in real estate and building operations. It covers all transactions—deeds, mortgages, leases, auction sales, building plans filed, etc. Orders for the Index should be sent at once to the office of publication, 14 and 16 Vesey Street.

DURING the week two interesting interviews upon the situation in Wall street have been published, one with C. P. Huntington and the other with Ex-Governor Flower. The first advised caution, the advice being based on a very long and successful business career and the fact, deducible therefrom, that only three out of any ten years were really prosperous. Mr. Flower on the other hand was very optimistic and prophesied much higher prices, based on the cheapness of money and a belief that the return on securities and the commercial rates of interest must reach a parity before the rising movement would stop. That is to say that people will continue to buy stocks and bonds so long as they promise a better return on the investment than can be obtained on notes and bills. This is an extreme view and seems to leave out of the calculation the question of security for both principal and interest. It needs a parity of security in the two operations to logically produce the deduction that Mr. Flower is reported to have produced. But at the moment there is little doubt that it is the more enthusiastic of these two gentlemen who will be followed, because he promises what people desire most, immediate profit, whilst the other simply offers security against loss. It will take a couple of years to decide which advised most soundly, and this is beyond the visual range of the crowd. It must be admitted, too, that buying is encouraged by something more than bullish talk from leaders of the movement. A prospect of continued cheap money is always a bullish factor of large importance. So long as people can make money out of the difference between the interest on what they can borrow and what they buy with it, so long will they carry on this operation, even to the point of danger and loss through the decline in prices of the securities purchased. Besides this the reports from trade centers seem all to be good. The iron trade is said to be discouraging orders, so full are its books. That this is no merely momentary phase finds support in the reviews of the iron market from abroad. The London "Economist," for instance, considers that the British manufactories are working to their fullest capacity, and that if the growth of production is to be continued the United States must supply the additional quantity. One of the most gratifying features of the situation is the interest that cotton is attracting, which, if maintained, means a great deal for the southeastern states and railroads and the latter's securities which have lagged in the present movement.

AS was anticipated, a measure of ease has come to the European money markets. This was a natural result of the January disbursements expressed in the reductions of the Bank of England and the Continental discount rates. As far as it goes this is satisfactory, but it must not immediately be taken to indicate the condition of the money market abroad for any considerable length of time. The bank discount rates as they now stand, 3½ per cent. in London and 5 per cent. in Berlin for instance, are by no means low, contrasting as they do with rates of 2 per cent. and 3½ per cent. of a year ago; and, although further reductions in the next week or two are possible, we have to see what the result of the spring demand for funds will be before any assurance of steady low rates can be accepted. The probabilities point rather in the direction of a rising than a lowering scale. That there will be an increased demand for money in Germany is evidenced by a bill now in the Reichstag to authorize the Reichsbank to increase its capital from 120,000,000 to 150,000,000 marks, and its tax free paper issue from 279,000,000 to 400,000,000 marks. The British Chancellor of the Exchequer will again have a surplus to handle in his next budget. His estimate last spring was for an increase of revenue of £496,000; in the first nine months of the year the increase is already £826,500. It is significant of the changing conditions of the foreign trade of the country that an estimated loss of £718,000 in customs for the year is already exceeded in the nine months, the actual loss for that period being £823,000. The great offsetting gains were in excise, death duties, postal and telegraph service. The English banks generally express the outcome of operations last year by substantial increases in dividends, and the bank clearings for the year make a new and very high record. French rentes show declines for the year as a result of political agitation and war scares; bank and the shares of the great railroad companies, on the other hand, advanced. Vienna, relieved in common with other centers of finance by access of money with the opening of the year, is still depressed by the fear that there is something unfavorable at work in the diplomatic relations between Austria and Germany, and by the miserable uncertainity of the final outcome of the dispute with Hungary. From Argentina it is reported that not for many years has the country had before it such fair promise of peace and prosperity. The rapid decline of the gold premium and the corresponding advance in currency contributes to this prospect, and is due to confidence in the promises of the new administration in favor of peace, retrenchment and reform.

THE "Army and Navy Journal" takes us to task for saying that the "supremacy of the military arm" is the soldier's ideal. Our contemporary assures us that this is all wrong, and complains that we have only a flippant regard for facts in saying so. Bless your soul, then what are the facts? We were not talking mind you of our present corporal's guard of an army, but of an organization permanently augmented and developed to the European standard, under the inevitable pressure and entanglements of the imperialistic policy. With an army of 25,000 men amid seventy millions the supremacy of the military arm is truly beyond the dream of anyone. But when our case becomes similar to that of France, Germany and Russia by reason of our walking in the very path which has forced them to add battalion to battalion and gun to gun the supremacy of the military arm will be no longer a dream but an actuality. Remember, supremacy need not be, in form, political. It is enough if military requirements dominate the nation. In the middle ages the church dominated society, but the outward form of government was not ecclesiastical. To-day, in this country, finance and commerce are paramount, and there is little uncertainty about their supremacy. We do not assert that the soldier is more of a tyrant or more grasping than priest, aristocrat or merchant. He is made of the same stuff, however. He will act as they act, and the known history of the world shows beyond peradventure that the class or the organization that holds power uses it primarily for its own advantage and for the furtherance of its own ends. The logical outcome of ecclesiastical activity is the authority of the church. The inevitable outcome of a dominant commercialism is a commercial regime. In increasing our army and building up our navy to the standard demanded by Imperialism we are creating conditions which everywhere have led or are to-day leading to the "supremacy of the military arm." Those are the facts. Who can look at the appalling militarism of armed Europe and doubt it? The question for every American is: Shall we remain as we are, or follow Europe? A nicely balanced midway course is humanly impossible.

ONE of the impossible things of the moment is to obtain a correct statement of the existing debt of this city and the latter's ability to make further issues of bonds for improvements. It was supposed that the Mayor's message, published last week, gave this. According to this document it appears that on January 1, 1898, after the technical cobwebs which for political reasons were spun around the debt last year had been swept away under pressure of public demand, there was an adverse balance of $13,566,875.69. The debts of other constituents of the consolidation having not only offset New York City's borrowing margin of $30,000,000 to $40,000,000, but having also created the excess named. In July last new assessments having been established in Manhattan and the Bronx, a borrowing power of $6,928,113.20 was created and, as we understand the figures, reduced the excess to $6,638,762.49. The debt issues of 1898 amounts to $30,164,906.91. These issues, however, did not increase the excess, having been made to provide for the liquidation of liabilities

previously incurred, but for which no bonds had been issued, and merely changing the form of liability from contract to bonded. In October last the Board of Estimate and Apportionment provided for the issue of bonds amounting to $35, 292,495.59 for various improvements, a list of which was given in our issue of November 12, 1898. The real estate valuations just announced will, if maintained, as undoubtedly they practically will be when finally revised in July next, increase the borrowing powers of the city by $42,151,876, a sum not quite equivalent to the excess of last July and the bonds since authorized, which make a total of $42,931,257. After having made this calculation, should anyone consult the proper authority in the Comptroller's office as to its accuracy he would be told that it was not right to use the Mayor's figures in such an arbitrary way, because the condition changed from day to day by the cancellation of bonds, the operations of the sinking funds, etc. In the main, however, the result must be that the increased assessments will only about provide for the bonds already authorized, and that further issues depend upon the ability of the city to obtain authority from the Legislature to make special provision for the county debts assumed in consolidation.

THERE is a naivete, amusing rather than charming, with which President Vreeland meets the arguments against four tracks on Amsterdam avenue, or rather the use by the Third Avenue Railroad Company of the Metropolitan Street Railway Company's tracks, which amounts to the same thing. He says if the two companies use the same tracks they will have to reduce the speed of their cars. By the same reasoning he might claim that in order to run their cars at top speed they had a right to fence in the roadway of the avenue. On the other hand, the property owners and residents would be justified in replying: If the companies cannot get speed enough on the surface without killing or maiming our children and damaging our property, they ought to go overhead or underground. Mr. Vreeland claims, too, that the Amsterdam avenue is a leased line, and that, therefore, as lessees the Metropolitan Street Railway Company cannot admit the Third Avenue Railroad company upon it. This is only true if the lessors cannot be induced to sanction the arrangement. In spite of all the talk in opposition, the companies will very soon find that they can operate on two tracks if they cannot get four, and the opposition should be encouraged to carry on their fight. It is not a question of running cars at the greatest speed, but one of running them at as great a speed as is compatable with the rights of others. It is usual for a street car company as soon as one gets a franchise on a thoroughfare to think it owns it; as a matter of fact it usually does, but as a matter of abstract justice it is the residents who have first claim upon its privileges, and for this abstract right the West Side property owners are fighting and deserve to succeed.

THE proposed extension of Sixth avenue from Carmine street to Canal street is one of those improvements that ought to have suggested themselves long ago, but for some inexplicable reason did not. The theory underlying this proposition is to give the wholesale dry goods section south of Canal street direct communication with the largest retail section in the city, that above Fourteenth street, in place of the circuitous connection they now have. The lines to be suggested for this improvement have not yet been determined. It is a question whether the two small streets, Clarke and Hancock streets, shall be utilized, or whether the lines of Sixth avenue shall be continued to the proposed new terminus in Canal street. Incidentally it is claimed that the cutting of this addition to Sixth avenue would break up some old rookeries, now threatened with permanence by reason of being enclosed away from active movement of the city. The objections to the proposal have yet to be learned, but unless they prove to be more serious than can at the moment be possibly imagined, it ought to be carried out. If carried out it is certain to pay for itself very soon in increased valuations. The new President of the Borough of Manhattan, James J. Coogan, has taken the matter up and promises, if it is approved by the Local Boards, to press it upon the attention of the other municipal authorities. A hearing will be given on the subject on Friday, 27th inst., at 2 p. m., to which all the owners of property likely to be affected by the improvement have been directly invited, and then doubtless the feasibility or otherwise of the plan will be demonstrated.

THE suggestion comes from the Fire Department and is, it is reported, to take the form of a bill in the Legislature, that owners, and not tenants, should be compelled to pay the fines for allowing fires to occur in chimneys. This is one of those attempts to force owners of buildings to take up duties that rightly belong to tenants with which our police regulations are so full. It implies that the owner can control the acts of a tenant and can at will enter leased premises for inspection and correction of foul chimneys, which is only the fact in a small minority of cases. If a bill of the nature indicated is introduced into the Legislature it ought to be promptly defeated.

WHY NOT AT PAR?

THE recent increase of assessed valuations was hardly a friendly act to Manhattan real estate. It contains many cases of inequality and injustice which are sure to involve legal opposition. Of this we shall speak later. Of course it was not in any sense a malicious act. It was moreover perfectly legal. It was required by the charter and it may even have been necessary under the financial conditions created by a hasty undigested scheme of consolidation. In the long run, no doubt, real estate will succeed in somehow adapting itself to the new status, whatever it is, and the harm done will be to some individuals. One cause of the trouble that has arisen is the suddenness of the act and the flaring announcements that accompanied it in the daily papers. Property owners and investors have been greatly scared. They have seen assessments on certain conspicuous pieces of property marked up heavily, and the general idea has got abroad that all the little fellows have been "touched" proportionately. They saw that the assessed valuation of many of the great office buildings, hotels and apartment houses were increased from thirty to fifty per cent., and they concluded that, of course, all other property had been similarly treated.

This impression is in a degree erroneous. At any rate it is greatly exaggerated. We publish below some comparative figures taken from the tax books, showing how smaller properties have fared under "equalization." Of course, valuations have been increased, but it will be seen not to the extent at first imagined by many.

The assessors seem to have taken the view that a great deal of the big property, down-town and up-town alike, has been undertaxed hitherto, and they have consequently "equalized" somewhat heavily on it, a great deal more heavily than on the smaller properties. The announced intention of the department has been to raise valuations to a seventy-five per cent. basis. That is supposed to be the Brooklyn standard, and under consolidation Brooklyn leads. It cannot perhaps be said that in itself seventy-five per cent. is too high a measure for taxation. Indeed, it is not easy to see what harm would result to real estate if valuations were placed at once at 100 per cent. That would end many uncertainties. The present indefinite fluctuating system admits a great deal of juggling, and we see politicians perpetually playing on the loose ideas that the public hold as to the real nature of a tax rate. In itself, of course, a tax rate is no indication of how much the city demands from its taxpayers. The rate may be low on a high valuation or high on a low valuation, and yet come to the same thing in the end, so far as the number of dollars taken from people's pockets. Moreover, valuations below par very easily permit inequalities between one real estate owner and another, favoritism and a host of political evils. There should be a definite standard of valuation by means of which a man may measure whether he is being treated any differently from other taxpayers in his own locality or in other parts of the city. Fixity of conditions is what the investing public require beyond all else. Why run the risk then of another sudden raise in valuations? Why not at once establish some permanent basis by law? If seventy-five per cent. is the proper figure let it be that, or make it for the sake of greater clearness and definiteness 100 per cent. The tax rate would then mean something, and the citizen might be induced to take a greater interest in municipal management.

THE BUSINESS OF 1898.

In presenting the tabular summaries of the results of last year's business, which will be found below and in other pages of this issue, it is not possible to indulge in the language of gratulation. It is, however, conveying no news nor creating unnecessary alarm when it is said that 1898 was not a good year for the realty business in this city, except in its close. But as a bad year, in the theory of probabilities, is more than likely to be followed by a good one; and, as we have just said, the old year closed well, to which may be added the facts that the new year has opened well and that the commercial prospects of the country are good, it may be fairly hoped that 1899 will be much better than 1898. The actual difference in the volumes of business of 1897 and 1898 was not great, the conveyances being only 891 less in the last named year, but 1898 is the first of ten years that does not show an increase over its predecessor, a fact that shows how natural growth of business was checked by the untoward circumstances of the year. There was also a falling off in values, not large in the average, but notable in the total. Last year the number of conveyances with stated considerations was 6,541, out of a total of 14,097, the aggregate considerations, $104,060,581, and the average consideration, $15,909. In 1897, the number of conveyances with considerations was 6,916, out of a total of 14,988, the aggregate consideration $111,232,874 and the average $16,083. This disclosure of a lowering of values was foreshadowed by the general trend of the market during the year.

There was a sympathetic movement in the mortgage branch of the business; because, although the figures indicate a considerable increase in the value of the mortgages filed, those of 1898 include four corporate mortgages, which are not properly real estate mortgages, and which together account for $26,500,000, while there were no such mortgages filed in 1897. If these are eliminated, there is for last year a total of 15,852 mortgages filed, having an aggregate value of $208,114,596, and, for 1897, corresponding figures of 16,203 and $214,715,080, respectively, with differences in favor of that year of 351 in the number of mortgages and $6,600,484 in the money value. These differences are not large, but they also testify to the check in growth of business along with the record of the conveyances. The average amount per loan for 1897 is $13,251, and for 1898, $13,129, from which it may be taken that the advances of loaners, naturally, followed the course of prices.

The distribution of the business of the year both in sales and mortgages will be found in the tables appended hereto. These tables distribute the totals of the conveyances and mortgages of the boroughs of Manhattan and the Bronx into the twenty-one districts specified, to which they belong. The first table covers only the last quarter of, but the second the whole of last year. Regarding this distribution, there is not much to be said in addition to what has already been said from time to time in explanation of similar quarterly tables. The purpose of the tables is to call attention to the sections of the city where activity is, or has been greatest. While dullness is the chief characteristic in the lower part of the city, this has not been without exception. In the third section—Canal and 4th streets, east of the Bowery—and in the 7th—between 4th and 34th streets east of 3d avenue—there has been considerable activity. This has also been the case in the sections between 59th street and 155th street. In the lower East Side sections, there has been a pressure of population, which demanded that the old-fashioned dwelling or tenement should make way for modern buildings of larger housing capacity, and this explains the large buying of old buildings in the first section, mentioned among those most active, and also the Astor sales and the re-sales that followed, in 4th, 5th, 6th and 7th streets and Avenue A, so far one of the most successful movements in real estate in this city of late years, and one that is by no means completed. The activity north of 59th street is due to what appears to be a never-ending demand for apartments, flats and tenements for tenancy and purchase. While referring to the live sections, the Bronx should be mentioned as about 25% of the total number of con-

veyances, and 12% of the total mortgage loans come from that borough. There, too, building industry is as pronounced as it is because of demand for housing at moderate rentals.

WHO PAYS THE TAX?

The radical increase in the assessed valuation of real estate, particularly in so far as it affects Manhattan, continues to be the chief topic of discussion among real estate agents and brokers. The greatest uncertainty prevails as to how the addition to the local tax will be distributed—whether it will be borne by the landlord, the tenant, or both, and, if by both, whether a larger share will fall upon the one than upon the other. Light is thrown on this question in an interview with Prof. E. R. A. Seligman, of Columbia University. Prof. Seligman said in substance:

If the general property tax were uniformly enforced, the additional burden of taxation imposed by the increase of some $37,000,000 in the assessed valuation of Manhattan real estate and by the increase in the tax rate from 2.01 to, say, 2.40 per cent., would be borne by the landlord. For, if the tax were as great, proportionately, on personal property as on real estate, the earnings of capital, so far as affected by the tax, would remain the same in real estate as in personalty. The amount of capital available for building improvements would suffer no diminution, and the production of new housing would go on as before, unaffected by the increased tax. As a matter of fact, however, the general property tax is not uniformly enforced. Many classes of personalty, as imported merchandise in original packages, United States bonds, notes, checks, and certificates, property in transitu, goods produced in another State sent on commission, deposits in savings banks, etc., are exempt by law, and these exemptions facilitate fraudulent evasion on the part of personalty legally taxable. Furthermore, personal property, so far as it is intangible, frequently and in large part escapes the detection of the tax assessors. Last year, despite unusual efforts to reach personalty that had hitherto evaded taxation, eight-tenths of the tax was borne by real estate. In view of the impossibility of securing a uniform distribution of the general property tax—an impossibility due to defects inherent in the system—the increased assessment on real estate partakes of the character of a special tax. The nex tax will increase the disproportion between the burden on real estate and that on personalty, which, in turn, will cause some part of the capital to be diverted to personal property which would otherwise have been available for the production of new buildings. This diversion will continue until, the demand for houses having overtaken the supply, the landlord will be able to exact higher rents, and thereby to restore the former relation between the earning capacity of capital invested in real estate and that invested in personalty. However, the tendency of the whole tax to be shifted to the consumer will be somewhat retarded by the fact that the increase in the tax is not uniform throughout the city. It is smaller in the outlying districts, while in the suburban districts outside the city the tax, of course, remains as low as ever. To the extent of the difference in the incidence of the new tax, the tendency will be for tenants to prefer the lower-priced rents to the higher. In the centrally-located sections, an increase of rent will mean a relative, though not necessarily or even probably an absolute decrease of population. The net result will be that the major part of the permanent increase in the tax occasioned by consolidation will be shifted, taken as a whole, to the consumer; in some sections, that is where the increase is disproportionately high, a part will fall upon the landlord. The precise extent to which this shifting process will be carried will depend upon the increase in the assessment on personalty. The larger the tax on personalty, the less the shifting of the realty tax to the consumer. According to the Mayor's message, the budget for 1899 is abnormally large to the extent of some $10,000,000. The temporary increment in the tax required to cover this particular excess of expenditure will, of course, be borne chiefly, if not exclusively, by the landlord. So far Prof. Seligman.

Needless alarm has been created by the action of a part of the press, which, for political reasons, has magnified the significance of the increase in the assessed valuation in Manhattan. Compared without regard to the assets of the several boroughs, the increase in Manhattan appears disproportionately large. But compared with the assets, it is smaller than in any other borough except Brooklyn, where the difference will probably be made up to some extent in the personal property assessment. Put in percentages, the increase on the valuation in each borough at the last levy is: Manhattan, 17.5%; Bronx, 22.2%; Brooklyn, 7.8%; Queens, 39.7%, and Richmond, 66.2%. It requires no extended argument to show that the tax which results in Manhattan cannot, coming at the present time, fatally affect real estate interests. The increment has been placed almost wholly on commercial and the better class of residential properties, clubs, theatres, etc., in the longitudinal middle of the island. Broadway, from the Battery to 59th street, 5th avenue, from 14th to 86th street, and 6th avenue, north of 14th street, have

been chiefly affected. In other words, the increased assessment has been placed upon precisely those classes of property, especially office buildings and speculative holdings, which, according to representatives of organized labor, have been favored at the expense of medium-priced and cheap housing, the homes of the common people. At any rate, conceding the necessity for the increased tax, it has been judiciously distributed. A rise of rents in the tenement and flat house districts would have occasioned an exodus of population to the suburbs within and without the city. The people who live in the fashionable residence quarters will not be governed by similar considerations of economy. As regards mercantile buildings, their tenants can not hope to carry custom with them beyond certain restricted neighborhoods. Furthermore, the large tenantry of modern mercantile buildings reduces the prospective increase of rent on each tenant to a minimum. The increment in the assessed valuation of the Bowling Green Building, for example, is $1,000,000, representing a tax of, say, $24,000. The building contains 255,011 square feet of rental space. If the entire tax increment were shifted to the tenantry, it would mean an additional rent of 9 cents per square foot, or $21.60 for the year for a medium-sized office. And at no time since the panic of 1893, to say the least, has the demand for mercantile housing been so great, both absolutely and in relation to the supply, as at present.

As was pointed out by Prof. Seligman and others, the cheapening of money, which has been pronounced since the beginning of last year, and which is still in progress, will tend strongly to counteract the increased tax, considered as a burden upon property in the aggregate. With a reduced interest rate on his mortgage, the landlord will, speaking generally, be untouched by the tax. In so far as the increased tax is permanent, as was seen above, it will be shifted to the consumer, in whole or for the most part; only in so far as it is temporary will it be borne by the landlord. And the fall in the interest rate will more than cover the slight temporary tax and the still smaller share of the permanent tax which cannot be shifted to the tenant.

OUR ALBANY LETTER.

Albany, Jan. 19. —The Senate and the Assembly did nothing this week to interest owners of real estate in New York or builders there, except to introduce bills. The trend of legislation concerning New York cannot yet be discovered. There are frequent hints of rapid-transit legislation, but none has thus far been proposed in a legal form. Many of the bills, if passed, would increase the already too great expenditures of New York. The school teachers are driving bills to increase their salaries.

The bills of the week, with their proposers and introductory numbers, are given below:

Senator McCarren (Intro. No. 68), ratifying the opening of Wadsworth avenue, from Kingsbridge road near 173d street to 11th avenue. It annuls the local assessments incurred in acquiring the title to the lands to the extent of 50 per centum.

Senator Mitchell (Intro. No. 74), amending Subdivision 3 of Section 21 of Chapter 908 of the Laws of 1896, so as to read as follows: "3. In the third column the full value of such real property, together with a statement containing the value of the land and the buildings or structures upon it, separately, and a brief description of such buildings or structures. This act shall take effect on the first day of September, 1899." Senator Mitchell explains that the bill would add a third column on the assessment table.

Senator Mitchell (Intro. No. 78), amending Section 183 of Article 9 of Chapter 908 of the Laws of 1896 (exempting certain corporations from the tax on capital stock), by adding "land or building corporations whose capital is wholly invested in real estate within this State," to those which are liable to a tax under Sections 185 and 186 of the same Chapter, shall be exempt from the payment of taxes prescribed by Section 182 of the Chapter.

Senator Ford (Intro. No. 83), extending the time for the work of the Commission which is investigating the cause of the decline of New York's commerce.

Senator Ambler (Intro. No. 88), amending Chapter 908 of the Laws of 1896 by providing that "all bonds and mortgages upon real property situated within this State shall be taxable only as prescribed in Section 15." Section 15, as amended in this act, says: "Bonds and mortgages upon real property situated within this State shall not be assessed for taxation by the assessors of any tax district, but the same shall be taxed, and the tax thereon shall be collected as follows: The owner of the real property covered by such mortgage shall pay the tax levied and assessed against such real property. Upon the presentation to the owner or holder of such bond and mortgage by the owner of such real property of a receipt or other sufficient evidence of the payment of the tax levied and assessed against such real property, such owner of such real property shall be entitled to be credited upon and on account of the moneys due upon said bond and mortgage, with such proportion of the tax so paid as the amount of principal sum of said mortgage remaining unpaid when the said tax was collected shall bear to the whole amount of the assessment upon and against such real property."

Senator Ellsworth (Intro. No. 124), providing that "an assessment of real property heretofore made shall not be deemed to be invalid because the property was assessed to an owner not residing in the tax district, instead of to a resident occupant, or as non-resident land, as required by Section 9 of the tax law.

Assemblyman Brennan (Intro. No. 101), "to regulate assessments and to provide for home rule in taxation;" making it the duty of all assessors in assessing real property of any kind to assess the value of land separately from all buildings, fences, structures, drains, crops, plants, trees, and other improvements thereon, and to state in separate columns the assessed value of each piece of land and of the entire improvements thereon. The common council or municipal assembly in each incorporated city may, in their discretion, direct that all direct taxes in such city, collected exclusively for city purposes, shall be levied upon the assessed value of real estate alone, including land and all improvements thereon, or upon the assessed value of land alone, exclusive of improvements and of personal property, or upon the assessed value of land, improvements and personal property taken together.

Assemblyman Redington (Intro. No. 92), providing for the election of an alderman from that part of the 34th Assembly District of New York situated north of the Harlem River, and of another alderman from that part of the 34th Assembly District located south of the Harlem River.

Assemblyman Phillips (Intro. No. 84), amending Section 447A of the Penal Code relative to insufficient scaffolding, by adding a clause in regard to permitting persons to occupy unsafe positions. The words added are, "or a person or corporation who is the occupant, tenant, lessee, or owner of a house, or any occupant, owner, tenant, lessee, manager, superintendent, or person in charge of any building or edifice whatsoever having windows, who orders, directs, allows, or authorizes any person in his or its service or otherwise, to stand, sit, or occupy any position whatever on the sill or outside part of any window in such house, building, or edifice, for the purpose of cleaning, polishing, or painting, or performing any operation upon such window, or any part or portion thereof, or adjacent thereto, unless the said occupant, tenant, lessee, or owner of a house, or any occupant, owner, tenant, lessee, manager, superintendent, or person in charge of any building or edifice whatsoever having windows as aforesaid, shall provide and supply suitable and effective apparatus or appliance for the saving of life and prevention of accident to persons so employed, is guilty of a misdemeanor."

Assemblyman Adler (Intro. No. 63), providing that "no signs or advertising bill boards which are over 6 feet in height shall be erected upon any building in any city of the first class, nor shall a fence over 10 feet in height, to be used solely for advertising purposes, be erected in any such city. Any person, or corporation, erecting any such sign, bill board or fence, or the owner or owners of any building or premises upon which such signs, bill boards or fences are erected, shall forfeit the sum of $50 and a further sum of $10 for every day during which such signs, bill boards or fences are allowed to continue.

Assemblyman Sanders (Intro. No. 153), amending Chapter 409, Laws of 1886, entitled, "an act to regulate the employment of women and children in manufacturing establishments, and to provide for the appointment of inspectors to enforce the same," by authorizing the Factory Inspector "to appoint as many special deputy factory inspectors as he may find necessary for the proper enforcement of this act. These special deputy factory inspectors shall not receive any compensation or salary for their services. No person shall be appointed as a special deputy factory inspector who is not a member of a labor organization incorporated under the Laws of the State of New York." The law amended contains provisions in regard to the enclosure of elevators in manufacturing establishments, the stairs, doors, and fire escapes of manufacturing establishments. The unpaid deputy factory inspectors, therefore, will have considerable power to harrass the owners of buildings if they choose.

Assemblyman McKeown (Intro. No. 145), amending Section 422 of Chapter 378 of the Laws of 1897 (the Greater New York Charter), providing "the words 'local improvement,' as used in this section, shall be construed to mean any work, the payment of which was, prior to the passage of this act, provided for by the laws in force in the territory of the corporation formerly known as the Mayor, Aldermen and Commonalty of the City of New York, in whole or in part, by assessment upon the property deemed to be benefited thereby, or the owners thereof, other than assessments which are confirmed by a court of record." Section 948 of the Charter also is amended. It reads: "Unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the front feet) on the line of the proposed improvement, no assessment shall be imposed for the paving of any street, or any portion thereof, which has been once paid and the expense thereof paid by the owners of the adjoining property." The sentence in brackets is dropped out of the present law in this bill, and also the following sentence at the end of the section: ["This section, however, shall apply only to the streets within the territory of the corporation formerly known as the Mayor, Aldermen and Commonalty of New York."]

Assemblyman Fallows (Intro. No. 134). Senator Ford's bill to remove two street railway tracks where a company is using four on the same street.

Assemblyman Grossman (Intro. No. 168), same as Senator Mitchell's; amending Subdivision 3 of Section 21 of Chapter 908 of the Laws of 1898 in regard to assessment books.

Assemblyman Fallows (Intro. No. 22), copy of Senator Ford's bill, making it unlawful to operate a street railway on Amsterdam avenue unless the tracks are so located that they are at least twenty feet distant from the nearest curb line of the sides of Amsterdam avenue.

Assemblyman Slater (Intro. No. 190), a copy of Senator Ford's bill (Senate Intro. No. 271), amending the charter provisions regarding the Department of Education, so as to give the Board of Education power to lease property required for its purposes.

Assemblyman Slater (Intro. No. 189), a copy of Senator Ford's bill (Senate Intro. No. 24), repealing Sections 1824 to 1838 of the New York Consolidation Act, and the acts amendatory thereof, relating to mechanic's liens on account of public improvements.

Assemblyman Grossman (Intro. No. 207), increasing the compensation of commissioners of estimate and assessment from $6 to $10 a day.

Assemblyman Mazet (Intro. No. 213), authorizing the Controller to appoint an agent to supervise sales of personal property.

THE KING ESTATE SALE.

Referring to the recent sale of the King Estate, Mr. F. R. Houghton said he made an estimate, November 5, 1898, of all the eleven parcels; his estimate was $666,000; the total price realized was $717,725. His estimate of the two 5th avenue lots, corner of 88th street, was $90,000, which is $31,000 less than they

brought. Mr. Carnegie did not sign his contracts to purchase his two block fronts between 90th and 92d streets until November 23d. It is generally conceded by real estate experts that $90,000 was a full figure for the two 5th avenue lots at the time mentioned, and is fully borne out by Mr. Carnegie's purchases, which show that he only paid between thirty-two and thirty-three thousand dollars for inside lots, and fifty and fifty-five thousand dollars for corners; therefore, if the above sum of $31,000 is deducted from $717,725, it would leave $686,725, which is exactly $20,725 of the estimate.

The Real Estate Market

Real Estate Market.

The business of the private sales' market has been very satisfactory as regards both quantity and quality. It has been well distributed topographically, and has embraced a fair variety of property. At the beginning of the week brokers reported that, in the absence of settled opinion as to whether the owner or the tenant would have to pay the increment in the local tax, investors were showing a tendency to postpone the consummation of purchases. But as the week advanced the conviction appeared to become general that the tax would eventually be shifted to the consumer, and the inclination to extend negotiations began to wear away. As regards speculative property, the tax question was said to have exercised little, if any, adverse influence on negotiations, the reason being that the price of speculative holdings commonly bear little relation to present actual or possible earning capacity. Indeed, the announcement of the augmentation of the tax appears to have had a tendency to bring speculative property into the market for improvement. The transactions in choice vacant land embrace two lots in 5th avenue, opposite the park, five in Central Park West, two in the Boulevard, and a number in other high-class residence streets. Eight lots purchased at the sale of the King estate have been resold to builders. A noticeable feature of the week's business has been the large sales of acre property in Brooklyn. The activity in similar property on Staten Island, where Cornelius G. Kolff has sold a large tract, near Huguenot, for a seaside resort, further goes to show that the demand for suburban property which became manifest last spring has been beneficially influenced, if at all, by the tax announcement. But, although the number of transactions in lots on Manhattan, including antiquated East Side tenements, has been considerable, the sale of investment property in the form of mercantile buildings and flats has been equally conspicuous. Of course, the purchase of No. 8 Broad street by the Stock Exchange, coming as it does at a period of activity, and made under a pressing need of more space, will not exercise the same influence on the real estate market that the earlier purchase did. Nevertheless, it established a new record for high-priced inside lots—$234 per sq. foot. The other notable transactions of the week comprised a block front of 5-story warehouses on the east side of Rutgers slip, between South and Water streets; the old buildings on the northeast corner of 5th avenue and 19th street; the new 6-story elevator apartment at the northwest corner of Lenox avenue and 126th street; the new 8-story fireproof building at Nos. 30 and 32 East 21st street; the old building, Nos. 75 and 77 Duane street; the 7-story building, No. 51 West 3d street; the 6-story apartment house, No. 325 West 83d street. The total number of transactions given below is 70, with considerations given in 23, and amounting to $2,227,700. Corresponding figures for last week are 47, 8 and $1,520,300, respectively.

The improved tone of the auction market, which became manifest at the sales of the King and Bathgate estates, found little opportunity for expression this week. The list of offerings was small, and restricted chiefly to the common run of cheap dwellings, flats and tenements, sold under foreclosure. However, in the executor's sale of leaseholds belonging to the James Mulry estate, conducted by Richard V. Harnett, the prices obtained were extremely satisfactory. The voluntary offering, No. 30 East 81st street, a 4-story dwelling sold by the same auctioneer, brought $39,500. No. 13 East 80th street, a similar house on a larger lot and in a more attractive street, was sold at private treaty by Mr. Harnett in November for $36,000. The three store and tenement houses on the southwest corner of the Bowery and 4th street, sold in partition by Peter F. Meyer, were bought by one of the heirs for $106,000.

The following properties were bid in, withdrawn, or adjourned to dates beyond the coming week: No. 118 Wall street, William M. Ryan, bid in at $42,200; No. 1436 2d avenue, Bryan L. Kennelly, adjourned to January 30; No. 523 Lenox avenue, Philip A. Smyth, adjourned to February 2; Nos. 403 to 407 East 23d street, Peter F. Meyer, adjourned to February 2; No. 13 East 22d street, S. Morris Pryor, withdrawn.

Richard V. Harnett & Co. will sell at auction on 31st inst. the 4-story and basement high-stoop brownstone dwelling, No. 47 W. 35th street. Description will be found in our advertising pages or can be had of the auctioneer at Nos. 71 and 73 Liberty street.

William H. Sohn has leased, for Mrs. Hubert Geenen, to Mrs. Mary Kelly, the upper part, 3 floors, of No. 330 6th avenue, near 21st street, for a term of 3 years and 4 months, for $62,400 per year.

Brooklyn.

The result of another week's investigation of the work of the Board of Assessors seems to have made most property-owners satisfied with the effect of consolidation on Brooklyn real estate. As was indicated last week, the individual taxpayer is finding that a lower tax rate will give him a smaller tax to pay, even though his property is assessed as high as it was in 1897. From statements made by the assessors in the different wards, it was found that complaints were largely confined to the residents of the outlying wards, the 29th (Flatbush), the 30th (New Utrecht), the 31st (Gravesend), and the 32d (Flatlands). According to the figures published last week, these four wards together show a total increase of about $10,000,000. As the entire increase for the borough is not quite $45,000,000, of which $5,000,000 is borne by the Brooklyn Wharf and Warehouse Trust, leaving a practical increase of but $40.000.000, it can be seen that these four wards will pay about one-quarter of the increase for the entire borough. To those familiar with the immense building operations which have gone on in these sections since 1897, this result is not surprising. Moreover, it will be somewhat difficult for property-owners to convince the Board of Assessors that they have unduly raised the values in these wards. To furnish information as to the comparative assessments for '97 and '99 on the big office buildings, hotels, theatres, etc., the following list has been compiled:

BANK AND OFFICE BUILDINGS.

	Valuation. 1898.	1899.
Brooklyn City R. R. Co.	$180,000	$180,000
Mechanics' Bank	300,000	350,000
Real Estate Exchange	210,000	300,000
Franklin Trust Co.	270,000	270,000
Garfield Building	365,000	450,000
"Eagle" Building	240,000	240,000
Arbuckle Building	270,000	270,000
Dime Savings Bank	154,000	175,000
Title Guarantee & Trust Co.	100,000	100,000
Brooklyn Savings Bank	350,000	350,000
National City Bank	200,000	200,000
Phoenix Building	220,000	220,000
Jefferson Building	90,000	90,000
Johnston Building	100,000	100,000
New York and New Jersey Telephone Co.	11,000	[1]250,000
Manufacturers' Trust Co	85,000	100,000
Continental Building	115,000	140,000
Germania Savings Bank	130,000	130,000
Williamsburgh Savings Bank	250,000	250,000
Hamilton Building	187,000	187,000
"Citizen" Building	100,000	100,000

[1]This increase is explained by the fact that the present location of the Telephone company on Willoughby street, was, in 1897, occupied by very ordinary structures, which were torn down to allow the erection of the present building.

HALLS AND THEATRES.

Academy of Music	325,000	325,000
Clermont Rink	48,000	48,000

The Mansion House	100,000	100,000
The Pierrepont House	90,000	90,000
The Grosvenor	70,000	70,000
The Berkeley	75,000	75,000

[2]This increase is due solely to the addition which was under construction in 1897.

CLUBS.

Hamilton	90,000	90,000
Crescent Athlectic Club—city house	70,000	70,000
Country houses, Bay Ridge	82,000	147,000
Oxford Club	40,000	40,000
Union League Club	85,000	85,000
Montauk Club	106,500	106,500
Brooklyn Club	70,000	70,000
Germania Club	39,000	39,000

STORES.

Abraham & Straus[3]	585,000	585,000
F. Loeser & Co.	437,000	437,000
Journeay & Burnham	200,000	200,000
Bauland's	475,000	475,000

[3]Abraham & Straus were also assessed $125,000 for the addition to their building, which was only partially finished in 1897. This wing is now entirely completed and is assessed at $190,000, making a total assessment for the building as now existing, $775,000.

From an inspection of the above figures, it will be seen that few of the prominent office buildings, hotels, clubs, theatres, etc., of Brooklyn have been increased in valuation since 1897. The largest increase is that of the Crescent Athletic Club country property at Bay Ridge, which is nearly doubled. With this exception, the assessments are very nearly the same as they were two years ago.

Aside from the continued interest in the assessments, the week has been noteworthy for the activity in suburban properties. One of the most important transactions was the purchase by the Coney Island Jockey Club of one hundred and fifty acres adjoining the present holdings of the club at Sheepshead Bay. This property includes six farms, notably the farms of Martha Brasher, George Magill, Fannie Donnelly, and a portion of the Cowenhoven farm, all of which are in the 31st ward. Those who were particularly interested in the purchase of this property were Wm. K. Vanderbilt, Lawrence Kip, Wm. C. Whitney, Newboldt Morris, J. H. Bradford, and other members of the Board of Governors of the Coney Island Jockey Club. The price paid was $300,000 cash. The brokers who negotiated this deal were McNulty & Fitzgerald. It is the intention of the club to enlarge its race track and also to lay out a magnificent park, which is to be open to the public. It is stated that the purchasers will maintain this park for a period of five or ten years, at the end of which time they will place the property on the market. They expect to realize a handsome profit on this transaction. The fact that such representative men as are identified with this club are looking to Brooklyn for investment holdings is most significant. According to McNulty & Fitzgerald, this result is directly attributable to consolidation.

Through the same firm of brokers another large farm of Brooklyn is to be owned by Manhattan interests. The Neefus Farm of Peter I. Neefus, comprising 80 acres in the 29th ward (Flatbush), is under contract of sale to Jefferson M. Levy. This property runs from the Old Cove Road along Church avenue, 4,000 feet to Utica avenue, and has a frontage of 2,000 feet on Utica avenue. The price paid was $250,000 cash. This price is generally considered the highest received for any property in that vicinity, with the exception of that paid for the 75 lots, lately sold by the Reformed Dutch Church. This church property consisted of an entire block, bounded by Martense avenue, Church avenue, New York avenue, and Nostrand avenue, and was sold for about $30,000. It is stated that the Neefus Farm will at once be laid out by Mr. Levy and placed on the market in the shape of building lots.

The sale of the Ditmas Farm, in Flatbush, to the Republic Savings & Loan Association of Manhattan, for $140,000, furnishes still further proof that Manhattan capital is looking to Brooklyn for investment. This property comprises 23 acres and is situated just north of Newkirk avenue, between Ocean avenue and Coney Island avenue. This tract is a most valuable one because of its location. Newkirk avenue, on the south, was opened some two years ago, and is now built upon with fine houses. On the north is the Walbridge tract, a portion of which was recently sold, while just north of the Walbridge tract is the Zabriskie homestead, which is nearly all built upon. The fact that the Brooklyn Heights Railroad Company has just laid its track along Avenue C, from Flatbush avenue to Coney Island avenue, while the Kings County Elevated Railroad, with a station at Newkirk avenue, runs north and south through the property, will insure rapid transit to the future residents of this tract. On the west the farm adjoins Coney Island avenue, with its easy communication with Coney Island, while Ocean avenue on the east affords a fine boulevard to Prospect Park and Sheepshead Bay. It is stated that the Loan Association has already received offers of $155,000 to $160,000 for its new purchase.

Another piece of suburban property to change hands during the past week was the house and tract held by the Inebriates' Home of Kings Co. Through C. N. Moody & Co., a contract was signed for the transfer of this property for $65,000. The purchaser was Mr. Coykendall, of C. N. Moody & Co. This property consists of the five-story brick building used for the Home, and some ten acres of vacant land between 1st and 2d avenues and 89th and 92d streets, on which the building is situated. The sale of all the property held by the Inebriates' Home was authorized by the Legislature last spring, and in March, a vacant tract of some ten acres, lying just east of the recently sold portion, was purchased by F. C. Cocheu for $61,500. The remainder has been on the market since then, but has been held at too high a figure to find a ready purchaser. To real estate men the building itself counted for nothing in estimating the value of the property, and all offers were made on the basis of vacant land simply. The fact that this portion has sold for $65,000, while the easterly portion sold for $61,500, seems to indicate that the brokers were right. It is stated, however, that since the signing of the contract, Mr. Coykendall has received an offer of $75,000 for the property.

The Germania Real Estate and Improvement Company has just purchased the W. I. Kouwenhoven farm, of 76 acres. This farm is situated in the 32d ward (Flatlands), between Flatbush avenue and Utica avenue, and Avenue M and Fillmore Place. The price paid was $2,350 per acre. This tract has a frontage of 1,500 feet on Flatbush avenue, while Avenue M is the street through which the trolley cars run to Bergen Beach. This property is considered of medium grade and was probably acquired by the company for speculative purposes.

The Hubbard Farm, recently purchased by the Germania Real Estate and Improvement Company, has been sold to a syndicate. The price paid is not known, though it was reported to be $3,500 per acre. This tract lies west of Flatbush avenue, between Avenue I and AvenueJ.

Ferris street, east side, 18 vacant lots, running from Sullivan street to Walcott street, 200x200; sellers, McCaldin Brothers, of Manhattan, and Albert N. Page, of Boston; buyers, Witterman Brothers, of Manhattan; brokers, Leonard Moody & Co.; consideration, $25,000. The purchasers will at once erect a first-

class 6-story brick building for the manufacture of bottling supplies. They formerly did business in Jersey City, and expect to bring with them 150 of their employees, who will take up their residence in Brooklyn. The new building will be erected at a cost of $100,000.

Lincoln Place, Nos. 55, 57, and 59, three 3-story brownstone houses; seller, H. Eastman; buyer, S. Gottlieb; brokers, Leonard Moody & Co.

Garfield Place, No. 249, corner Fiske Place, 3-story and basement brownstone dwelling; sellers, Williamsburgh Savings Bank; buyer, Theodore S. Jenkins; brokers, Loenard Moody & Co.

Lincoln Place, No. 147, 3-story brownstone house; seller, Wm. Flanagan; buyer, P. J. Gelson; consideration, $10,750; brokers, A. Peace & Son.

14th street, Nos. 336, 338, and 340, three 4-story brick double apartments, 25x70x100; sellers, Wm. Calder; buyer, Wm. Dick; consideration, $40,000; brokers, Johnson & Son.

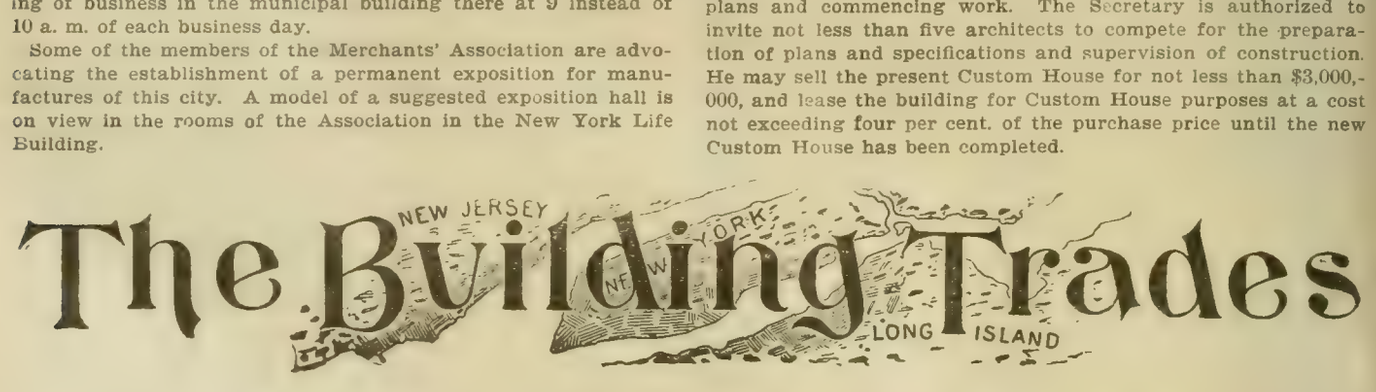
REAL ESTATE NOTES.

It is reported that Fire Commissioner Scannell will ask the Legislature to amend the charter by making owners of houses, instead of tenants, responsible for fines imposed for chimney fires.

The Taxpayers' Alliance of the Bronx are agitating for the erection of a Federal building in their borough and for the opening of business in the municipal building there at 9 instead of 10 a. m. of each business day.

Some of the members of the Merchants' Association are advocating the establishment of a permanent exposition for manufactures of this city. A model of a suggested exposition hall is on view in the rooms of the Association in the New York Life Building.

Edward Candee is the buyer of the plot 100x100 at the southeast corner of Park avenue and 65th street, and Gilbert C. Brown of the plot 100x100 adjoining on 65th street; Lalor & Berringer were the brokers; the sale was reported in our issue of December 24. The buyers will erect eleven American basement dwellings.



The office of the Bureau for the Collection of Assessments and Arrears for the borough of The Bronx, will be opened for the transaction of business in the Crotona Park Building, 177th street and 3d avenue, on Wednesday, February 1, 1899. Office hours, from 9 a. m. to 4 p. m. Payments must be made before 2 p. m. Office hours on Saturdays, 9 a. m. to 12 m.

Applications have been made to the State Board of Railroad Commissioners by the Metropolitan Street Ry. Company and the Broadway and Seventh Avenue Railroad Company for permission to use either electricity supplied by an underground current or storage batteries, or motors operated by compressed air, upon the following streets and avenues: From Lexington avenue and 96th street through 96th street to 1st avenue, to 93d street, to Avenue A, to a point near the entrance to the Astoria Ferry; also upon 3d street and 4th street, between West Broadway and Wooster street.

Out of the business of managing real estate, which was abandoned some time ago by the Title Guarantee & Trust Co. in deference to the protests of the real estate agents, is growing an enterprise on lines which are familiar to property-owners of other cities but which are new to New York. Mr. David J. McComb, formerly Manager of the uptown office of the Title Guarantee & Trust Co., is now doing the business of managing real estate on his own account, making a specialty of apartment houses, under the name and title of the Real Estate Management Co.

The sale of a plot of nearly 4¼ lots on the northeast corner of Tremont avenue (177th street) and 3d avenue, at the terminus of the 3d avenue "L" road, by the Kountze Estate, through Broker James E. Callan, at $50,000, will be followed next month by the erection of first-class buildings. The buyer, James O'Toole erected the Crotona Park Municipal Buildings. The plot likely have Architect Geo. B. Post prepare his plans. Mr. O'Toole erected the Croton Park Municipal Buildings. The plot sold has a frontage of 89 feet on Tremont avenue and 119 on 3d avenue, and is part of a block of about 75 lots, owned by the Kountze estate, bounded by 3d, Tremont and La Fontaine avenues and 178th street.

Congress has now before it a Treasury bill to provide for the building of a new Custom House on the Bowling Green site. This bill authorizes the Secretary of the Treasury to purchase the Bowling Green site and appropriates $750,000, in addition to the balance of $1,494,977.52 unexpended under the appropriation for the Appraisers' Warehouse site. The Secretary may contract for the erection of a Custom House to cost not exceeding $3,000,000, and $1,000,000 is appropriated to be available for procuring plans and commencing work. The Secretary is authorized to invite not less than five architects to compete for the preparation of plans and specifications and supervision of construction. He may sell the present Custom House for not less than $3,000,000, and lease the building for Custom House purposes at a cost not exceeding four per cent. of the purchase price until the new Custom House has been completed.

MATERIAL MARKET.

BRICK.—Tugs were sent to Harerstraw this week, and 3 barges of brick were brought back. As far as it can be ascertained, these were sold at $6.50 and $6.75. The covered stock on barges is small and is about 30% less than at this season last year. The quality of these is as good as usual, and they are being held at former prices, owners feeling that the winter is still young. Pales are in quick demand at $3.75, and some have sold for $4.00. Practically all the brick that are coming to the market are New Jerseys. These are being shipped to order only. Prices are about $6.00 and $6.25. The demand in general for brick is seasonably good.

LATH.—The arrivals in lath this week did not exceed 1,000,000. These were sold at $2.00. The demand is brisk, the supply limited, and manufacturers are holding for better prices. Values are additionally enhanced by the increase in Eastern freights, which have advanced from 20 to 25 cents above former rates The advance is due to the scarcity of vessels occasioned by the loss in the storms of last month, together with the increased general demand for shipping facilities. Three cargoes are in the market at present and are being held for $2.10; $2.00 having been refused. Manufacturers are asking $2.25 to arrive.

LIME.—Everything that arrived this week up to Thursday was sold, Rockland bringing 75c and 85c and two cargoes of Thomason going for 70c and 80c. Three cargoes of Rockland arrived the latter part of the week. A portion of this went for 75c and 80c. There is no change in State lime; prices remaining at 70c for common and 90c for Jointa. The demand in general for lime is fair, considering the cold weather, and, in the event of open weather, prices will probably advance.

CEMENT.—There is no Rosendale afloat, all arrivals are by rail, and very little is coming, stock being shipped to order only, and the demand is only seasonably fair. Prices are unchanged from last week's quotations. Trade is quiet in domestic Portland. Goods are being shipped to order only, and the demand is quiet, with prices unchanged from last week. Very little imported Portland is being received, and the demand for some brands is hardly sufficient to absord all that arrives. Indications point strongly to an increase of from 10c to 15c on all of the standard brands in the near future.

OIL.—Seed is selling for $1.18 for cash in Chicago, and on this basis, with any sort of demand, oil will probably bring higher prices. At any rate, it will tend to strengthen the general condition of the market. There is no out-of-town oil to be obtained under 40c, and city oil is bringing 41c. This is a good, sound condition of trade for the opening of the regular spring business. Prices are unchanged, at 41c for 5-bbl. lots of raw oil and 42c for smaller quantities. Boiled oil is 43c and 44c, and Calcutta is 54c.

LEAD.—The general conditions of trade in lead are unchanged, the demand is seasonably good, and prices remain unchanged from last quotations.

NAILS.—The demand for nails is very much improved and is now more than seasonably good. Prices have advanced, and are at present as follows: Wire, f.o.b. Pittsburg, $1.45 to jobbers and $1.50 to single carload buyers; on dock New York, $1.60 and $1.65; small lots, New York stores, $1.75. Cut, f.o.b. Pittsburg, $1.20, with no concessions; on dock, New York, $1.35; small lots, New York stores, $1.45. Both jobbers and manufacturers are quoting prices for immediate acceptance only. Prices are not held open, and there is a probability of a further stiffening in values.

GLASS.—There is a fair volume of business being done in glass and trade is in seasonably good condition. The assortment of sizes and grades are fairly well filled, and prices are unchanged at 80 for plate, 80-10 for French window, and 80-20 for American window.

PAINTS.—Oil and lead being unchanged from last week, and there being no increase in the demand for paints, values are unchanged from last quotations. There is a possibility of a rise in prices if lead and oil again advance.

NAVAL STORES.—The market for spirits of turpentine was quiet, there being a very limited inquiry. Consumers are holding off as long as possible, but as their supplies are diminished, a better trade is expected in the near future. Business is mostly in jobbing parcels for immediate needs. The tone of the market is, however, steady, and holders are asking 45c for machines. Values closed at 44½c for Southerns and 45c for machines. Tar was quiet, with a limited call, and values are easier. Prices are: Regulars, $1.60 and $1.65; oil barrels, $3.25. Pitch was steady at $1.65 and $1.70.

LUMBER AND HARDWOODS.—The tone of the general market is improved, and there is a feeling that better prices will prevail in the near future. The Adirondack and Eastern spruce men have made another advance of $1.00 per 1,000 ft., they feeling that this wood has been selling lower than was consistent with the general conditions of trade. White pine box has advanced $2.00 and is 12% higher than it was three months ago. This is occasioned by a shortage in stocks usual at this season, together with the increased cost of shipping by rail. Yellow Pine is in steady and large demand, with prices low and unchanged. The low prices are due to the large volume of production, although the Cuban and South American demand has added an impetus to the output. White Pine timber and lumber remains firm, with prices unchanged. There is always a steady demand for this wood at all times of the year, and prices are relatively low. The advance in spruce is well maintained, and stock is being well absorbed. The North Carolina mills are worked to their fullest capacity. There is little or no stock on hand at any of the mills, and there is a possibility of an advance in values on middle grades, as mill-men complain that prices are inconsistent with the yield of lumber. First and low grades of this lumber, as usual, are going begging. The conditions in hardwoods are unchanged. Stocks are seasonably scarce, and prices have not advanced. Oak, quartered and plain, is in good demand, the inquiry about equalling the supply. Ash is in good demand, with prices unchanged. Elm is sought after, with prices about the same. Poplar is in steady demand and values are the same as last quotations. Trade in general is in good shape for this time of year, and the prospects are for a good volume of business at better values when the regular spring trade opens. Dealers report lots of business, but feel that prices are not what they should be.

OF INTEREST TO THE BUILDING TRADES.

Louis Korn states that he is ready to take bids on E. Finn's bachelor apartments.

Janes & Leo, architects, will remove on February 1st to No. 965 Boulevard, corner of 97th street

Wagner & Jahn, architects, of No. 67 University Place, are the successors of the late Albert Wagner.

F. R. Comstock, architect, formerly of No. 98 5th avenue, has removed to the St. James Building, No. 1133 Broadway.

Martin A. Fullam has been appointed temporary inspector of buildings in the Department of Buildings, Borough of Manhattan.

M. J. Smallheiser, architect, formerly of No. 22 Stuyvesant avenue, Brooklyn, has removed to the Germania Bank Building, Nos. 192 and 194 Bowery, New York City.

C. S. Buell, roofing cornices and skylights, formerly of Nos. 164-166 Montague street, Brooklyn, has removed to the Garfield Building, No. 26 Court street, Brooklyn, N. Y.

The annual election of officers of the Mechanics' & Traders Exchange will be held on January 31st, and it is expected that all of the officers of the past year will be re-elected.

Last week, in referring to the dissolution of the firm of Bunn, Carey & Nase, the new firms, Bunn & Nase and Charles P. Carey & Bro., were referred to as architects. That was an error; both are builders. Both have offices at No. 1123 Broadway.

Charles S. Furgeson, of the firm of Furgeson & Marsden, granite dealers, died at his home, No. 11 Bank street, on Wednesday, January 18th, at the age of fifty-nine. Mr. Furgeson had for some time been a sufferer from cancer of the tongue, and, in hope of relief, underwent an operation, shortly after which he died. He was born in Inverness, Scotland, and on coming to this country was, together with his partner, for many years in the employ of Booth Bros. He was a member of the St. Andrew's Society, the Caledonian Club, the Democratic Club, the Knights of Columbus, and the Building Trades Club.

The East River Bridge Commissioners held a special meeting this week to hear the facts of the case in regard to the padrone system, which, it is claimed, is in existence among the granite cutters of the new bridge, and for which 20 granite cutters were removed by the union recently. Mr. W. J. O'Brien, of the Board of Delegates, stated that the men were secured through a padrone, who, in addition to exacting a fee of $12, charged them $1 a day as long as they were employed. He also stated that the union men removed in consequence of the strike were replaced by non-union Italians, who worked for from $1 to $1.50 less a day than union men. Mr. Ryan, of Shanley & Ryan, contractors on the bridge, denied that his firm paid less than the legal wages, and repudiated any connection with a padrone. The commissioners will submit the testimony to the corporation counsel for his opinion.

TRADE NOTES.

PARQUET FLOORS.

Attention is called to the card of Mansfield & Co. on another page. Mr. A. W. Mansfield was formerly with the late firm of Prince & Muir, who were well known as manufacturers of parquet flooring. Besides other important work Mr. Mansfield designed the parquet floor of the Gold Room in the Holland House and floors in the mansions of Cornelius Vanderbilt and C. P. Huntington. Messrs. Mansfield & Co. employ only experienced workmen, guarantee all work executed and will submit designs and estimates of cost on application. They make over old floors equal to new, and will send free "How to Care for Floors." Their showroom is centrally located at No. 22 West 34th street, adjoining Astor Court.

THE MAPES-REEVE CONSTRUCTION CO.

Mr. D. H. Mapes is no longer in the employ of the Mapes-Reeve Construction Co. (Incorporated). His place is now filled by Albert F. Norris, who has been with the company for several years. The Mapes-Reeve Construction Co. recently completed the large Public School at Rivington and Suffolk streets, and have under way the new Gouverneur Hospital, an engine house on Maiden Lane for the Fire Department, Christ English Evangelical Church, Brooklyn, and a factory on Park avenue and Emerson Place, Brooklyn, for the Long Island Bottlers' Union. They recently reconstructed the "Underwriters' Club," on the southwest corner of William and Liberty streets, for the Dudley Co., and report the outlook as very satisfactory for a busy year. They continue at the old stand, No. 150 Nassau street, American Tract Building, Telephone 5048 Cortlandt.

CONCERNING REAL ESTATE AGENTS AND BROKERS

Ruland & Whiting, of No. 5 Beekman street, have charge of the renting of the new seven-story fireproof building, on the northwest corner of John and Cliff streets, which will be known as a headquarters for the Metal Trade. Three-quarters of the building is already rented, and Ruland & Whiting announce that only a few choice offices and a large wareroom are still to rent.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's Office to be recorded.

Where the letters "P. M." occur, preceded by the name of a street, in these columns, they mean that it is a Purchase Money mortgage, and for further particulars see the list of transfers under the corresponding date. Where the rate is not given, read as 6 per cent.

Mortgages on 23d and 24th Ward property will be found altogether at the end of this list.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

Editor Record and Guide:

The use of the name of Leith and Glenn in lien filed by us, Jan. 14, is an error, as we find they are not the owners of the property No. 282 W. 137th street, against which our lien is placed.

B. Goetz Mfg. Co.

Editor Record and Guide:

In reference to lien filed last week, Mr. L. Kohen (carpenter) procured a contract from me upon representations not carried out. He has overdrawn the amount due according to the contract, which he abandoned. Upon his advice, two of his employees filed a mechanics' lien on my property for more money than said Kohen owed them for work done on my buildings.

H. Nicholsburg.

Questions and Answers.

SUB-CONTRACTING WORK ON PUBLIC BUILDING

To the Editor of THE RECORD AND GUIDE:

Will you kindly tell me if there is any law prohibiting me from sub-contracting any portion of the work on a public building now being erected? I have such a contract, and I am informed it is unlawful, and will in all probability cause some trouble when I begin work.

Answer.—There is no law against it, but there is usually in such a contract a provision that no portion of the work shall be sub-let without the permission of the city or head of the department making this contract.—Law Editor.

PAYMENT OF TAXES BY HEIR.

To the Editor of THE RECORD AND GUIDE:

Will you please give me the law regarding the payment of taxes by an heir of property whose proportion of equity therein is subject to partition. Has said heir a right to pay the taxes on the real estate to protect his interest? And can such heir collect from the other heirs and owners of said property? Or will the said tax so paid become a lien upon the property?

Answer.—He has such a right, and can recover the amount paid when the property is partitioned, or can call upon the other heirs to contribute. After he has paid the tax it is no longer a lien upon the property.—Law Editor.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's Office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.
